## **Preface**

The aim of secondary education is to make the learners fit for entry into higher education by flourishing their latent talents and prospects with a view to building the nation with the spirit of the Language Movement and the Liberation War. To make the learners skilled and competent citizens of the country based on the economic, social, cultural and environmental settings is also an important issue of secondary education. The textbooks of secondary level have been written and compiled according to the revised curriculum 2012 in accordance with the aims and objectives of National Education Policy-2010. Contents and presentations of the textbooks have been selected according to the moral and humanistic values of Bengali tradition and culture and the spirit of Liberation War 1971 ensuring equal dignity for all irrespective of caste and creed of different religions and sex.

The present government is committed to ensure the successful implementation of Vision 2021. Honorable Prime Minister, Government of the People's Republic of Bangladesh, Sheikh Hasina expressed her firm determination to make the country free from illiteracy and instructed the concerned authority to give free textbooks to every student of the country. National Curriculum and Textbook Board started to distribute textbooks free of cost since 2010 according to her instruction.

In the era of globalization, English is one of the most powerful tools for pursuing higher studies, using technology, inter- cultural and inter-personal communications, and job markets at home and abroad. The curriculum makes it explicit that language learning will be graded and contents will reflect real life situations as the ultimate purpose of language learning is to communicate. The English for Today textbooks have been developed to help students attain competency in all four language skills, i.e. listening, speaking, reading and writing. The contents and illustrations of this textbook have been developed in order to suit the learners' age and cognitive level.

The textbook has been revised and re-edited by a prominent educationist to make it learner friendly in 2017. I thank sincerely all for their intellectual labour who were involved in the process of revision, writing, editing, art and design of the textbook.

# Good citizens

### Learning outcomes

After we have studied the unit, we will be able to

- narrate incidents
- participate in discussions
- listen to and understand others
- describe something in writing.

## Lesson 1: Can you live alone?

**A Look at the pictures below and discuss in pairs the following question and suggestion.**

- 1 Can you live alone in a house?
- 2 Make a list of the problems you think you will have if you live alone in a house, e.g. having accidents, feeling lonely, etc.

Picture 1

Picture 2

**B Read the story and answer the questions that follow.**

Long ago, a young man who lived in a village, found his life full of problems and sufferings. Quarrels, ill-feelings, jealousy, enmity— all were part of everyday life there. So he left his house and went to a jungle to live by himself. There he made a nice little hut with wood, bamboo and reeds. "Ah, how happy I am here!" said the man to himself.

But one day he found some mice in his hut. The little creatures soon made holes in his blanket. So he brought a cat to kill the mice. The cat needed milk. So he brought a cow. The cow needed grass and hay. So he brought a cowhand.

The cowhand needed food. So he took a wife to cook meals. Then children were born to them, and the man found himself again in a family.

So nobody can live alone, unless that person is either an angel or a devil. People need food, shelter, companions and help. They need to look after each other. And if they live in a family or community, their needs can be fulfilled. Hence living in society can make people good and happy citizens.

**C Close your book and answer the question. What five things did the young man do in the jungle? Now divide into groups of five. Tell the story to the groups sequentially.**

**D Answer the following questions. First discuss in pairs, then write the answers individually.**

- 1 Why did the young man leave his house?
- 2 Where did he make a hut? What did he make the hut with?
- 3 Was the man happy in his hut?
- 4 How did he find himself again in a family?
- 5 Where and how can a person be happy?
- 6 What is the moral of the story?

**E Look at the pictures (a---j). Read the texts that follow (1---10). Match the pictures with the texts. Write the numbers of the texts next to a, b, c, etc. The first exercise is done for you.**

- 1 People living in a community or society often have problems. A family may have a problem with a particular member (a son / daughter) who keeps bad company. So they talk to each other to solve the problem.

- 2 To prevent theft or robberies, constant security measures are often necessary within the village / city area.
- 3 A community may have a problem-like it doesn't have a primary school in the village or locality. So the community members need to discuss the issue in a meeting and find out how to set up a school for their children.
- 4 Cooking should not be exclusively a woman's job.
- 5 Young learners must cultivate virtues and acquire knowledge and skills to prepare themselves to carry out their roles as good citizens. So they need to study formally in institutions.
- 6 To establish peace and harmony among the people in a locality / village, experienced and elderly people often mediate between quarrelling parties.
- 7 Only studying at school is not enough for young learners. They must also acquire knowledge and skills at home as well as from the media, clubs, games and sports, libraries and so on.
- 8 People in a society / locality often need to buy things at home. So there are vendors who sell necessary things.
- 9 In a village or locality roads often need repairing for easy movement of people and transport.
- 10 Along with acquiring knowledge and skills, the youth must cultivate good qualities like genuine sympathy for the weak and the poor. They should help the needy, show respect to others and have a strong sense of dignity of work.

**F Discuss in pairs and write the answer to the following question:**

**What can we do at home and in the locality to become good citizens?**

## **Lesson 2: Knowledge, skills and attitudes**

**A** Discuss in groups the possible answers to the following question.  
Then read the text in B and answer the question.

**What else do you need in addition to food, shelter and company to become a good citizen?**

**B** Read the text.

To be a good citizen, you have to prepare yourself to do good work in society. Well, then how can you prepare yourself?

First, you need knowledge. Today's society is knowledge-based. Without having knowledge of modern sciences, technologies including ICT and other necessary subjects, you will have difficulty living a good life. The other areas you, as a good citizen, should have knowledge about are:

- our country, its constitution, geography and people
- our state, its executive and legislative powers
- our judicial system
- our government and its structures and functions
- our history, cultures, traditions, literature, moral values and religions
- our socio-economic activities and educational system

Second, you need skills to do things. Knowledge is not enough. You must be able to apply your knowledge to do things practically.

Finally, knowing and doing things will bring about a change in your behaviour towards others. This behavioural change will show your attitudes towards others, that is, it will show how you think and feel about a person or thing.

Let's take an example. Suppose you, as a student, need to know about 'group work' in the classroom. So you ask yourself or your teacher or anyone else, "What is group work?" Or you may find about it in a book. In this way, you may know, or you may have the knowledge about group work. To do group work, the class has to be divided into groups. Each group is to do some tasks given by the teacher or in the textbook. The group members will discuss and share ideas and points, and finally one member will write the answers.

Then you start working in groups. In each group you take turns discussing points and answering questions. In this way you can actually do the task. Your teacher may monitor and help you to do the work.

Lastly, through regular group work it is expected that there will be noticeable changes in your behaviour. Possible changes are:

- You will develop the skill of speaking freely in English with your classmates and teacher.
- Your shyness will gradually disappear.
- You will develop the attitude of helping and cooperating with each other.
- You will learn to behave in a democratic way.

Most importantly, these behavioural changes taking place in you inside the classroom will be carried over outside the classroom in real-life situations.

**C Suppose you have learned at school how to make your drinking water safe and when and how much you should drink it in a day. Now write a short paragraph about how to make drinking water safe and its importance.**

**D Read the text below. Then discuss with your partner and write K (if the text is knowledge based) or S (if the text is skill based) or A (if the text refers to attitude) against each text.**

- 1 According to Abraham Lincoln, the 16<sup>th</sup> president of the United States, a democratic government is a "government of the people, by the people, and for the people." This means that the people have the right to control their government.
- 2 Two students are making a kite with coloured paper, sticks, glue and string.
- 3 Tisha's room was always messy. She could not find things easily. Recently she visited her cousin Ritu in Chittagong. She saw that Ritu's room was very neat and tidy. Everything was exactly in its place. Ritu could instantly find what she wanted. After getting back home, Tisha spent a whole weekend making her room well organised.
- 4 "It is the duty of every citizen to observe the constitution and laws to maintain discipline, to perform public duties and to protect public properties." (The Constitution of The People's Republic of Bangladesh)
- 5 Students in pairs are acting out a dialogue in a class.
- 6 Mouli is back from school. She is very hungry and looks exhausted. "What's wrong, Mouli?" asks her mother anxiously. "Don't

worry, Mom. I'm OK. I just didn't have my tiffin today." "But why?" "Our peon died this morning. With other students I gave my tiffin money to the widow."

- 7 The students of physical education class are practising stretching exercise in the school yard.
- 8 The affairs of Dhaka city were run by the Dhaka Municipality until 1978, when the city came under Dhaka City Corporation.

### **Lesson 3: Good character**

**A Ask and answer these questions in pairs.**

- 1 What do you understand by character?
- 2 What does a person with a good character usually do to others?

**B Listen to the Audio and answer the following questions.**

**Listening text 1**

**Questions: Tick the best answer.**

- 1 Which is the correct statement according to the information in the listening text?
  - a Good character does not mean special qualities.
  - b Good citizens must have good character along with other qualities.
  - c Character means a tool to curve wood.
  - d Character traits are distinctive marks always seen on a person's face.
- 2 The red crest of a rooster
  - a is a symbol of power and strength.
  - b enables it to crow in the morning.
  - c makes the bird tall and beautiful.
  - d shows how it is different from a hen.

- 3 The expression 'distinctive qualities' means those qualities of a person, which
- a are the same as others'.
  - b emphasise honesty in him/ her.
  - c make him / her different from others.
  - d he / she gets from their parents.
- 4 Character traits are
- a naturally gifted.
  - b personally learned.
  - c God given.
  - d physically visible.

**C Fill in the blanks in the following passage with appropriate words from the box.**

**F Write a paragraph about how tolerant or intolerant you are towards your classmates. Give reasons.**

## Lesson 4: Responsibilities

### A Read the text.

Rony's mother gave him 50 taka to buy salt and chillies. On his way to the market, Rony found a poor passer-by trying to hold a boy up, who was lying on the road, groaning. Coming near, Rony saw that it was his classmate Tanim, who was hit by a speeding motorbike. Immediately he stopped a baby taxi and took Tanim to a clinic. From there he phoned Tanim's parents. When they came to the clinic, Rony returned home without the salt and chillies. He had used the money to pay the taxi driver.

### Now discuss in groups the following questions.

- 1 Did Rony do right or wrong? Why ?
- 2 What do you think his mother did when Rony returned home without the salt and chillies?
- 3 What else could Rony do in the situation?
- 4 What do you understand by responsibility?

### B Read the text and answer the following question:

#### What is responsibility?

A responsibility is a duty or an obligation TO DO something. For example, you have the responsibility to attend school and pursue your studies properly, to take care of your parents in their old age, and so on. You also have responsibility to your society and the government, e.g. to help a neighbour in trouble or to cast your vote if you are 18 or over.

A responsibility is also an obligation or a duty NOT TO DO something. For example, you have the responsibility not to steal a book from a public library or not to pile up your building materials on the footpath. These are your responsibilities as citizens. But there are responsibilities of the government as well. Our government has the responsibility to provide for its citizens "the basic necessities of life, including food, clothing, shelter, education and medical care"<sup>1</sup>. The government also has the responsibility to protect the fundamental rights of its citizens which include freedom of speech and expression, freedom of the press, freedom of religion, equality of all before law<sup>2</sup> etc.

The knowledge, skills and attitudes you have gained at home, at school and in society will help you to be aware of your responsibilities and to carry them out effectively. Remember, discharging your responsibilities will be good for you, good for your family and friends, and good for your society and country as a whole.

### Notes

- 1 The Constitution of the People's Republic of Bangladesh, Part II.
- 2 Part III, *ibid* (*Ibid* : abbreviation from Latin *ibidem* which means in the same book or piece of writing as the one that has just been mentioned.)

### C Discuss in groups and write answers to these questions.

- 1 Which persons and institutions do you have responsibilities for? Make a list. The first in the list is done for you.
  - a. parents
  - b. ....
  - c. ... ..
- 2 Make a list of responsibilities you have as a student at home, school and in society.
- 3 Make another list of things you shouldn't do at home, school and in society.
- 4 Who do you get help from to discharge the responsibilities you have listed in C1? How do they help you?
- 5 Are there any difficulties in fulfilling the responsibilities? Briefly describe them.
- 6 Make a list of responsibilities other people have towards you. Briefly describe what might happen if they fail to fulfill the responsibilities.
- 7 (a) What rewards are you likely to get if you fulfill your responsibilities?  
 (b) What penalties or punishments may you get, if you do not carry out your responsibilities?

- 8 What responsibilities do you think you can perform well when you go on a class picnic or when your school stages a play as part of its annual prize-giving ceremony?

**D Look at the picture. Work in pairs.**

Suppose this road is near your school. As students of this school, what responsibilities do you think you have to get rid of this nuisance? Make a list of things that you will do.

## Unit Two

# Pastimes

### Learning outcomes

After we have studied the unit, we will be able to

- narrate incidents and events in a logical sequence
- participate in conversation, discussions and debates
- read maps, charts, graphs, etc.

## Lesson 1: Have you any favourite pastime?

**A Look at the pictures. What are the persons doing here? When do they do these kinds of activities?**

**B Read the conversation and answer the questions.**

**Tiya** : Anusha, what's the matter? You're wearing sports trousers, T-shirts, sports shoes and carrying a bag! Where are you coming from? And you look tired!

**Anusha** : Not exactly, Tiya. I'm great because I'm just coming back from the gym.

**Tiya** : Do you go to the gym regularly?

**Anusha** : Yes, I do. I go twice a week. It's one of my favourite pastimes.

**Tiya** : Really! Going to the gym is your favourite pastime! You make me laugh!

**Anusha** : Why not? I like sports because I like to be fit. I'm not a lazy person like you!

**Tiya** : What do you do there?

**Anusha** : I do yoga.

**Tiya** : Don't you have any other pastimes?

**Anusha** : Hmm... yes, I have. I like playing chess, painting, and reading books when I'm free. I also like photography but I'm yet to learn it. What do you do in your pastime?

Tiya : I like watching TV, listening to music, reading books and magazines, and playing games on the computer. I do like gardening. But we don't have sufficient space. So I do pot planting. By the way, I don't know much about yoga. Would you please tell me about it?

Anusha : Sure! I'll give you an article on it. It will help you know about yoga. Okay?

### Questions

- 1 Why does Anusha like going to the gym?
- 2 What are her pastimes?
- 3 Make a list of Tiya's pastimes.
- 4 How will Tiya learn about yoga?

**C Read the following texts. Then check (✓) the statements below:**

### **Yoga: Tap into the many health benefits**

#### **Understanding yoga**

Yoga is a kind of posture and breathing exercise. It brings together physical and mental disciplines to achieve peace of body and mind, helping you relax and manage stress and anxiety. Traditional yoga puts emphasis on behavior, diet and meditation. But if you're just looking for better stress management—and not an entire lifestyle change—yoga can still help. Youga trainers gradually choose easier to complex activities for practitioners. However, all practitioners do not necessarily need the same kinds of practice.

#### **The health benefits of yoga**

The potential health benefits of yoga are numerous and may include:

- **Stress reduction.** With its quiet, precise movements, yoga draws your focus away from your busy, chaotic day and towards calm as you move your body through poses that require balance and concentration.

- **Increased fitness.** As you learn and refine new poses, you may enjoy improved balance, flexibility, range of motion and strength. And this means you're less likely to injure yourself in other physical endeavors or in your daily activities.
- **Management of chronic health conditions.** Yoga might help in a variety of health conditions, such as cancer, depression, pain, anxiety and insomnia, fatigue and mood shifts. Yoga can also help reduce heart rate and blood pressure.
- **Weight loss.** If you're overweight or have eating disorder, yoga may help you make the healthy lifestyle changes necessary to gain control of your eating and reduce weight.

While you shouldn't expect yoga to cure you or offer you 100 percent relief, it can help some health conditions when combined with standard treatment. And if you already enjoy good health, yoga can be an enjoyable supplement to your regular fitness routine.

**D Work in pairs. Discuss these questions. Give your own opinions.**

- 1 How does exercise work on our memory?
- 2 What other benefits can you think of from exercise?
- 3 What is the most important benefit of exercise to you and why?

**E Complete the sentences.**

- a Yoga is a practice of .....
- b Traditional Yoga works through .....
- c Yoga is very effective in managing.....
- d Through the poses of balance and concentration Yoga .....
- e ..... results in increased fitness.
- f Yoga can reduce or work for .....
- g Yoga can control .....
- h Yoga cannot cure 100 percent, but .....

**F Check (✓) the statements about yoga below.**

a	Yoga improves fitness.	<input type="checkbox"/>	e	It works both on body and mind.	<input type="checkbox"/>
b	Yoga has little to do with eating habits.	<input type="checkbox"/>	f	It helps practitioners undergo similar level of difficulty.	<input type="checkbox"/>
c	It may differ according to practitioners' levels.	<input type="checkbox"/>	g	If you know yoga, you have better control over your real life hazards.	<input type="checkbox"/>
d	It helps people shake off all types of physical and mental disorders.	<input type="checkbox"/>	h	It also helps you live longer.	<input type="checkbox"/>

**G Read the text.**

Hi, I'm Shyam. I'm from Magura. Although it's the district headquarters, it's a small town. I'm in grade 9 now in Chander Haat Bidyaloya. I love games and sports very much. My father was an athlete in his student life. He inspires me to follow his footsteps and take part in games and sports or do some exercise besides my studies. So I get up early in the morning and take a walk with my father almost every day. We walk for about an hour. At school, during break I play *kabadi*, *gollachhut*, badminton, table tennis, and carom. Sometimes I practise the high jump and the long jump outside the school campus. Playing football is a passion for me. I like watching television too.

I watch sports programmes on different TV channels during my free time. I'm a fan of National Geographic, Discovery, and Animal Planet for their documentaries as they are quite interesting as well as educative. Recently my father has presented me with a camera as he was very happy with the result of my Junior School Certificate exam. When I hold the camera, I feel so excited! I wish I could be an amateur photographer in future - not to take only personal photographs at different parties but to shoot our beautiful Bangladesh. I'm sure that soon photography will be my most favourite pastime.

**H Work in pairs. Read the statements of the following grid. First match the parts in Column B with Column C to make complete sentences. Then make questions for the statements in Column A.**

Column A	Column B	Column C
What -----	Despite the fact that	besides his studies.
When -----	Magura is a district headquarters,	it is a small town.

**I Write about your own pastime following the model in G.**

## Lesson 2: Reading really helps!

**A** Read the conversation and tell what Anusha is going to read.

Anusha : Tiya, hope you enjoyed the article on yoga.

Tiya : Yes, it's great. By the way, Anusha, how did you enjoy London Olympics as a sports lover?

Anusha : People rightly say that it is the greatest show on earth. I'm still thrilled to remember what Michael Phelps and Usain Bolt have shown. Amazing!

Tiya : Right you are. They are incredible. However, I've got an interesting article on the Internet on Michael Phelps and Usain Bolt. You might like it and take part in the debate on who is better between these two greats. Please read it.

Anusha : Ahh... Michael Phelps and Usain Bolt! Thank you Tiya! I would love to read it.

**B** Read the text published in a newspaper in 2012, and answer the questions that follow.

**Michael Phelps, Usain Bolt are great, but who's better?**

With the curtains closing on the 2012 London Olympics, it's impossible not to look back and reflect on the greatest performances by Olympic athletes.

[Photo: Kirby Lee, USA TODAY Sports]

The Olympics have many memorable moments and athletes we'll remember by name alone. The list is quite big. Michael Phelps and Usain Bolt are the latest addition to this list of the bests. They made London Olympics stand apart. If there is any question like this: "What is the standout performance of London 2012?", perhaps the answer is "The London Games gave us Michael Phelps vs. Usain Bolt." The first one is an already decorated Olympian, who put the finishing touches on his great athletic careers. And another came up with a new definition of fast. Two of the most popular Olympic sports, sprinting and swimming, saw their two biggest stars captivating audiences. They'd also dominated the 2008 Beijing Games, but Phelps and Bolt cemented their legacies in London. Phelps, the American swimmer, passed gymnast Larissa Latynia for the most Olympic medals ever. Bolt was the third man to repeat as a 100-meter gold medalist and the first as a 200-meter gold medalist, and he broke his own Olympic record by running the 100 meter in 9.63 seconds. Once Phelps and Bolt were back in their pool and track, the story lines changed.

Phelps is the most-decorated Olympian ever, with 22 overall medals: 18 gold, 2 silver, 2 bronze. Bolt is the most accomplished Olympic sprinter, with the unprecedented double, making clear that he's the fastest man in the world.

But there's a debate: Who had the better Olympics? It'd be tough to top Phelps' eight gold medals in Beijing, but what if we're only talking London?

London was Phelps' grand finale. He won four golds and two silvers in seven events, and he says he'll never race again.

London was Bolt's chance to prove he's still the greatest. Bolt won six gold medals in six Olympic finals. He is the first man ever in the history of the modern Games to sweep the 100 and 200 in back-to-back Olympics. Not to mention the addition of back-to-back relay golds.

And Bolt became a legend, in his own words. Phelps already was. Bolt is just 25 years old, so there is no telling how long he can be on top of the sprinting world. What if he decides to "retire" from sprinting to focus on the 400 meters, just to break another world record or two? It would be amazing—and entirely possible for him to accomplish.

Who had the better 2012 Games? You tell us, let the debate begin.

#### **Childhood outdoor pastimes 'in decline'**

Traditional childhood pastimes of climbing trees and playing conkers are in decline, according to survey by the RSPB (Royal Society for the Protection of Birds). It's a charitable organisation registered in England and Wales.

The survey shows that people under 34 recall far fewer such childhood outdoor experiences than people over 55, according to a survey by RSPB.

People were asked which of the twelve Childhood outdoor experiences they could remember. The answer included making dens, daisy chains, climbing trees, playing conkers and feeding birds. Four out of five boys climbed trees and the same number of girls made daisy chains. But the survey showed the numbers declining among the newer generations.

Some 15% more of those aged over 55 had these outdoor experiences in their childhood, compared with those between 15-34 years old. Some 92% of the public agreed that experiences of nature were still important to children, and 82% agreed that schools should play a role in providing them to all children.

The survey has highlighted the positive impact of contact with nature on a child's education, health, wellbeing and social skills. At the same time, there has been a decline in these opportunities, with negative consequences for children, families and society—a condition now known as nature deficit disorder.

Mike Clarke, chief executive of the RSPB, will meet parliament members to urge the government to join other organisations in providing children with first-hand experiences of the natural environment. . . . "We believe this guidance should include the many positive impacts to children of having contact with nature and learning outside the classroom."

#### **Lesson 4: Change in pastimes in Bangladesh**

- A Tiya and Anusha decided to make a survey on students' pastimes in their class. After the survey they presented their findings in a chart. Look at the chart and read how they explain their findings.**

For classes 9-10		For classes 5-6	
Playing games and sports	22.3%	Watching television	31.2%
Watching television	17.2%	Playing games on computers	20.9%
Chatting with friends	13.7%	Reading books or magazines	11.7%
Reading books or magazines	12.9%	Playing games and sports	9.2%
Gardening	10.7%	Attending social programs such as music, recitations or debates	7.8%
Attending social programs such as music, recitations or debates	9.1%	Chatting with friends	6.7%
Playing games on computers	8.2%	Gardening	6.1%
Others	5.9%	Others	6.4%

Tiya: Hello everyone! My name is Tiya. My friend, Anusha and I are going to do a presentation on Pastime Habits of Classes 9 and 10 students in our school. There are 120 students, 60 in class 9 and 60 in class 10. The classes have gender equity. Each class has 30 male and 30 female students. The survey shows that 22.3 percent of students in classes 9-10 like games and sports as their most favourite pastime, which is the 4<sup>th</sup> option given by classes 5-6 students. Watching television is the second choice (17.2%) by the first group in contrast to 31.2% of the second group. It is noteworthy that watching television is the first choice of the second group. A considerable number (13.7%) of 9-10 students like to chat with their friends and thus it becomes the third popular choice in the chart while this becomes one of the less important choices by the younger kids. Only 6.7% of the kids take it as their first priority. It's interesting that both the groups like reading books. 12.9% of students of classes 9-10 take it as their favourite pastime. The number is 11.7% for Classes 5-6 students. Besides, gardening is voted (10.7% of students) to be the 5<sup>th</sup> preference by the grown up group though it is not that much liked by the younger group. Only 6.1% of the young kids are involved in it. This is interesting that though the higher number of students in classes 9-10 prefer attending social programs (9.1%) than students of classes 5-6 (7.8%), yet as a choice it is preferred by the latter group. It is the 5<sup>th</sup> choice for them while to the older group it is the 6<sup>th</sup>. Young kids

have greater fascination for playing games on the computers (20.9% like it as their first choice). The chart shows that as the kids grow up, they lose their passion for computer games. According to the chart the ratio declines to 8.2% from 20.9% when the kids are students of classes 9-10. Finally, it can be said that the influence of television has impact on both the groups but the more students grow up, the more they opt for fields/ gym.

### Questions

- 1 What are the gender policy of the surveyers?
- 2 What are the survey findings regarding watching television?
- 3 Which age group is more interested in socializing with others?
- 4 According to the chart, how do the kids change their pastimes when they are grown up? What changes does the chart for 9-10 reflect?

**B Work in groups. Make a chart on the pastimes of the students in your class and present it to your class.**

### Lesson 5: Pastimes vary

**A Read the conversation. What is it about? Do you agree or disagree?**

Tiya : Anusha, I really wonder how pastimes vary from generation to generation.

Anusha : Oh yes. I can tell you how.

Tiya : Although I don't know exactly, I think time is a big factor.

Anusha : You are right. Time changes many things. It changes our tastes and abilities. Technology has roles too. Look, there was a time when playing in the fields was very popular because we had many open fields around. Going to neighbours' houses and hanging out in groups were popular pastimes as well. You won't see these activities now. The process of urbanization, the aggression of satellite television and people's dependence on technology have changed our lifestyle. Now boys and girls of urban and semi-urban areas are more dependent on the computer for social networking, video games, or computer assisted programmes.

Tiya : Right. But how do you know all these things, Anusha?

Anusha : Oh....I read an interesting article on people's changing pastimes. It analyses the issue through a graph. Here it is. Read, and I'm sure you will enjoy it.

**B Read the article. Underline the words/expressions used in the article to show the changes in the data. The first one is done for you in the text.**

There is change in people's preferences for pastimes. A recent survey shows that during the last twenty years, teenagers have gone through significant changes in choosing their pastimes. The survey results are presented through a graph which shows that there is a steady rise in young people's tendency to watch TV. In 1990, 41% of teenagers liked watching TV which increased to 48% in the next ten years and it further increased to 52% in the next decade. Unfortunately, the picture is grim in terms of young people's attraction to field games and sports. While 50% of youngsters opted for games and sports in the 1990s, the figure was 12% less after a decade at 38%. Unfortunately the falling tendency persisted through the next ten years and by 2010 it came down to 25%. Though the young people have dissociated themselves noticeably from games and sports, there is a sharp and steady rise in their association with online or computer assisted programmes. In 1990 when the users of online or computer for pastimes were only 9%, in 2000 the number nearly doubled and reached 14%, and with a rapid increase in the next ten years it shot up to 23%.

The survey also explains the reasons for this change. It says that television has become a part of everyday life even to the underprivileged section of society. This has resulted in larger number of young people opting for watching TV as one of the most favourite pastimes. The increasing urbanization has reduced the number of open fields. Therefore, there is a fall in selecting games

and sports as favourite pastimes, though it's not a good news for the country. And the reason for selecting the computer assisted or online programmes is that computer technology is getting cheaper, easier and more popular every day. Indeed our young generations are stepping into the e-world.

**C Now work in groups and analyse the following graph.**

- 1 What country first observed Mother's Day as a national holiday?
- 2 When is Mother's Day now celebrated by most of the countries in the world?
- 3 How is Mother's Day usually observed?
- 4 Why should we observe Mother's Day?

**E Write a paragraph by answering each of the following questions.**

- 1 Do you help your mother with her housework? How?
- 2 Do you celebrate Mother's Day? If yes, when and how?

**Lesson 2 : May Day****A Look at the picture and talk about it.**

- 1 What do you see in the picture?
- 2 Can you relate any historical event to this picture? What happened on this day?

**B Read the text and answer the questions that follow.**

May Day or International Workers' Day is observed on May 1 all over the world today to commemorate the historical struggle and sacrifices of the working people to establish an eight-hour workday. It is a public holiday in almost all the countries of the world.

Since the Industrial Revolution<sup>(1)</sup> in the 18<sup>th</sup> and 19<sup>th</sup> centuries in Europe and the US, the workers in mills and factories had been working a long shift, fourteen or even more hours a day.

On May 1<sup>st</sup> in 1886, inspired by the trade unions<sup>(2)</sup>, half of the workers at the McCormick Harvesting Machine Company in Chicago went on strike demanding an eight-hour workday. Two days later, a workers' rally was held near the McCormick Harvester Machine Company and about 6000 workers joined it. The rally was addressed by the labour leaders. They urged the workers to stand together, to go on with their struggle and not to give in to their bosses. At one point of the rally, some strikebreakers started leaving the meeting place. The strikers went down the street to bring them back. Suddenly about 200 policemen attacked them with clubs and revolvers. One striker was killed instantly, five or six others were seriously wounded and many others were injured.

The events of May 1, 1886 are a reminder that workers will continue to be exploited until they stand up and speak out to gain better working conditions, better pay and better lives.

### Notes

1. Industrial Revolution: the period, especially in the 18<sup>th</sup> and 19<sup>th</sup> centuries Europe, when machines were invented and first factories were established.
2. Trade Union: an organisation that represents workers of mills and factories.

### Questions

- 1 What does May Day refer to?
- 2 How long did the workers have to work in a day before the May 1 strike?
- 3 Why did the workers in Chicago go on a strike?
- 4 What do you learn from the events of May 1, 1886?

21 February is a memorable day in our national history. We observe the day every year as International Mother Language Day. The day is a national holiday.

On this day, we pay tribute to the martyrs who laid down their lives to establish Bangla as a state language in undivided Pakistan in 1952. The struggle to achieve our language rights is known as the Language Movement.

The seed of the Language Movement was sown on 21 March 1948 when Mohammad Ali Jinnah, the Governor General of Pakistan, declared in a public meeting in Dhaka that Urdu would be the only state language of Pakistan. The declaration raised a storm of protest in the eastern part of the country. The protest continued non-stop, gathering momentum day by day. It turned into a movement and reached its climax in 1952. The government outlawed all sorts of public meetings and rallies to stop it.

The students of Dhaka University defied the law and brought out a peaceful protest procession on 21 February 1952. When the procession reached near Dhaka Medical College, the police opened fire on the students, killing Salam, Rafiq, Barkat, Safiur and Jabbar. As a result, there were mass protests all over the country and the government had to declare Bangla as a state language. This kindled the sparks of independence movement of Bangladesh.

21 February is observed as *Shaheed Dibosh* every year throughout the country in remembrance of the martyrs of language movement of 1952. The commemoration begins at the early hours of the day with mourning songs that recall the supreme sacrifices of our language martyrs. People wear black badges and go to the *Shaheed Minar* in barefoot processions, singing mourning songs. They place wreaths at the *Minar*. Many of them visit the graves of the martyrs at Azimpur graveyard and pray for them. They also attend various programmes organised in remembrance of the language martyrs.

The UNESCO (United Nations Educational, Scientific and Cultural Organisation) on 17 November in 1999 proclaimed February 21 as the International Mother Language Day in recognition of the sacrifices of the martyrs for the rightful place of Bangla. The day is now annually observed worldwide to promote awareness of linguistic and cultural diversity and multilingualism.

26 March, our Independence Day, is the biggest state festival. The day is celebrated every year in the country with great enthusiasm and fervour. It is a national holiday. All offices, educational institutions, shops and factories remain closed on this day. The day begins with a 31 gun salute.

Early in the morning the President and the Prime Minister on behalf of the nation place floral wreaths at the National Mausoleum at Savar. Then other leaders, political parties, diplomats, social and cultural organisations, educational institutions and freedom fighters pay homage to the martyrs. People from all walks of life also go there in rallies and processions. There are many cultural programmes throughout the day, highlighting the heroic struggle and sacrifice in 1971.

The country also witnesses a spectacular parade of defence forces, border guards, police, *ansars* and the VDP (Village Defence Party) at the National Parade Ground near the National Parliament. In Bangabandhu National Stadium, school children, scouts and girl guides take part in various displays to entertain thousands of spectators. Educational institutions also organise their individual programmes. Sports meets and tournaments are also organised on the day, including the exciting boat race in the river Buriganga.

In the evening, all major public buildings are illuminated with colourful lights. Bangla Academy, Bangladesh Shilpakala Academy and other socio-cultural organisations hold cultural functions. Similar functions are also arranged in other places in the country.

**A** Look at the picture. Then ask and answer the questions about it.

- 1 What's the picture about?
- 2 Where do you think the picture was taken?
- 3 What are the people doing?

**B Read the text.**

'Pahela Boishakh' is the first day of Bangla new year. The day is a public holiday. This day has a special significance for us as it is a part of Bangalee culture and tradition. People from all walks of life, irrespective of their ethnic identity or religious beliefs, celebrate the day with traditional festivities. On this day, the whole of Bangladesh is in a festive mood. The day inspires people to start life with renewed hopes and inspirations.

Every year the day is celebrated traditionally. People wake up early in the morning, have a bath and wear traditional clothes. Women wear white *sarees* with red borders and adorn themselves with colourful *churis* and flowers, while men dress themselves in *pajamas and punjabis*. It is a day when people love eating traditional food.

One of the most colourful events of the day is held in Dhaka. Early in the morning, people in hundreds and thousands pour in from all directions to attend the cultural function at *Ramna Batamul* organised by *Chhayanaaut*. The cultural programme begins just at sunrise and the renowned artists of the country take part in the programme that starts with the famous Tagore-song *Esho-he-Boishakh, Esho Esho* .....Artists also sing traditional folk songs, and perform classical dances to the rhythm of musical instruments.

People also come to join the colourful processions, the biggest carnival of the country, organised by the Fine Arts students of Dhaka University. The procession usually displays the traditional practices of Bangalee culture. The masks and wreaths worn by the people are so fascinating! Often they symbolise contemporary worries or happiness in the national life. It attracts an increasing number of foreign tourists every year.

The day is also observed all over the country. Different social and cultural organisations and educational institutions celebrate the day with their own cultural programmes.

On this day, newspapers bring out special supplements. There are also special programmes on the radio and television.

The celebration of Pahela Boishakh marks a day of cultural unity for the whole nation.

**C Ask and answer these questions in pairs.**

- 1 Do you go out in the morning of *Pahela Boishakh*? If you do, where do you go? If not, what do you do?
- 2 What kind of food do you eat in the morning of *Pahela Boishakh*?
- 3 Do you wear any special clothes on this occasion?

## Lesson 1: The ferry boat

**A** Look at the picture and answer these questions.

- 1 Where can you find this kind of boat?
- 2 Why does the boatman carry passengers across a river?
- 3 Why do people use country boats?

**B** Read the text and answer the following questions.

“Is there anybody here who has ever crossed a river by a country boat?”

“I have, teacher,” said Jamil. “And I clearly remember what happened in that journey.”

“Would you please tell us what happened?” the teacher asked.

“Okay, teacher. It happened when I was in class 6. On a weekly bazar day, people were coming back with their shopping bags and baskets in hands, on shoulders and heads. They had to cross the river. It was not a big river. There was a ferry boat plying on the river. The boat could cross it in 8-10 minutes. It was just after sunset. The weather was getting bad. The wind started blowing from the north-west. Black clouds were moving fast in the sky.

Everybody was trying to get into the boat. 'No more, no more, please wait,' shouted the boatman. But nobody listened to him."

"What happened then, Jamil?" asked Rumi.

"With too many people on board, the boat sank in the middle of the river," replied Jamil.

"Oh no! What happened then?" asked the teacher. "Thank God. There were no casualties. All the passengers swam to the other side. But some of them lost the stuff they were carrying such as oil, salt and milk," said Jamil.

"Were you on the boat?" asked the teacher. "No, teacher. Seeing the boat overcrowded, I waited for the next trip," replied Jamil.

"You did the right thing, Jamil."

## Questions

**Tick the best answer.**

- 1 A ferry boat was plying on the river.

Here 'plying' means

- a playing with other boats.
- b sinking in the river.
- c travelling along a route.
- d waiting for passengers.

- 2 Why was everybody trying to get into the boat?

Because

- a it was a weekly bazar day.
- b after sunset no ferry would ply on the river.
- c everybody had shopping bags with them.
- d it was going to be a dark and stormy evening.

- 3 The boatman requested the people to wait, because

- a his boat was very small.
- b the boat had already too many people.
- c there were other boats they could take.
- d he would not ferry people with bags and baskets.

- 4 “With too many people on board , the boat sank ...”

Here the phrase ‘on board’ means

- a on the boat.
  - b on the wooden board.
  - c outside the boat.
  - d on the notice board.
- 5 There were no casualties.

The statement tells us that

- a nobody died.
- b nobody was rescued.
- c nobody accepted their fate.
- d nobody lost anything.

- 6 The boat was overcrowded.

Here ‘overcrowded’ means

- a people were quarrelling on the boat.
- b the boat was unable to carry any more people.
- c the boatman did not like a crowd.
- d people were sitting on the boat’s bamboo hood.

**C Discuss in groups and write answers to these questions.**

- 1 Why did some people have little or no patience when the ferry boat was in danger of sinking?
- 2 'No more, No more, please wait' who said this? Explain in 2/3 sentences.
- 3 Answer the questions below:
  - a If we have too many buyers of fish in the market, what is likely to happen?
  - b If we have too many passengers at a bus or train station, what may happen?
  - c If we have too many people in a village / town / city, what will happen?

## Lesson 2: Are we too many?

### A Read the text and do the following project work.

The next day when the teacher came to the class and was about to start the lesson, Shanti Barua stood up and said, “Teacher, can I ask you a question, please?”

“Go ahead, Shanti,” said the teacher.

“In our last class, we heard Jamil's story of how too many people made the ferry boat sink. I have also seen crowds of people at the bus stand, railway station, launch and steamer ghats. It is not uncommon to see people travelling on top of a bus or train and meeting with tragic accidents. My question is: Are we really too many people in the country?”

“Thank you, Shanti. Please sit down.”

The teacher then looked round the class and asked, “How many of you have the same question in mind?”

Almost all the hands went up.

“Okay,” the teacher continued. “Finding the right answer to this question is very important for us — for our national development. So we will look at this issue with some facts so that we can find out if we are really too many or not.”

**Project work:** Discuss in groups and carry out a survey on the topic: “Too many people.” You can do the following things:

- Select only one small area such as your village or locality in the town / city where you live.
- Find out its area. (You can do it by walking around it. At normal speed you can cover about one kilometer in ten minutes. )
- Find out the number of people living in it.
- Find out about the people’s occupations, unemployment and poverty.

	<b>Bangladesh</b>	<b>Sri Lanka</b>	<b>India</b>	<b>China</b>
Land area	144,000 sq km (approx)	65, 600 sq km	3,287,590 sq km	9,600,000 sq km
Population	150 m	20 m	1.15b	1.33b
Density of population	1000	332	382	143
Birth rate (per 1000)	20.1	17.42	22.22	12.29
Death rate (per 1000)	6.1	5.92	7.48	7.03
Growth rate	1.40%	0.7%	1.41%	0.5%

In terms of land area Bangladesh is (1) (larger) than Sri Lanka, but (2) \_\_\_\_\_ than India. China is, of course, (3) \_\_\_\_\_ of all the four countries. Sri Lanka has the (4) \_\_\_\_\_ population among the four countries. However, China has the (5) \_\_\_\_\_ population shown in the chart. In fact, China has the (6) \_\_\_\_\_ population in the world and India has the (7) \_\_\_\_\_ highest population in the world. On the other hand, China has the (8) \_\_\_\_\_ growth rate among the 4 countries. Bangladesh has (9) \_\_\_\_\_ growth rate than India, but higher birth rate than (10) \_\_\_\_\_ and (11) \_\_\_\_\_.

**E Write a paragraph about the population situation of any of the countries above. Use the facts given in the chart in D above.**

### Lesson 3: Our food and shelter

**A Look at the pictures and answer these questions.**

- 1 What do the people do in a tree or a boat?
- 2 Why do they do so?

**B Discuss what will be our problems if our population becomes double the size it is now.**

**C Read what the teacher Ms Choudhury and her students are talking about.**

The class comes up with different problems. One group leader says, "The scarcity of food will be a serious problem in the years ahead. It is true that our agriculturists have developed new varieties of rice and its per acre production has definitely increased. But the rate of increase in food production cannot keep pace with the rate of population growth. This is because our land is fixed, i.e. we cannot increase it, while our population is increasing rapidly."

Another group leader comes up with the housing problem in the country, which he says adds much to the food problem. He says, "Families are growing larger in size and at the same time breaking into smaller families. Each smaller family needs a separate house to live in. Also the arable fields are being divided by these smaller families among themselves. Mills and factories are being set up, which occupy a considerable portion of our land. So while we need more land to grow more food to feed more mouths, our land is shrinking day by day. If our population grows at the present rate, a day will come when many people will not find any land to build a house on. And, as a result, many of them might live on trees or on the floating boats in the rivers."

"No way," another student argues. "Trees are being cut, hills are being cleared and water bodies are being filled up --- all to meet the needs of too many people."

"Thank you students," Ms Choudhury says, "You're quite right. Let me tell you about this village where I was born and brought up. Things were not like this in the past. I remember as a child, the village was so beautiful! The green paddy fields and yellow mustard fields seemed to be unending. They used to wave and dance in the breeze. There used to be a wood in the northern side of the village. There was a tall tamarind tree in the middle of the wood. Also there was a big banyan tree which looked like a huge green umbrella, with its aerial roots hanging down. I often used to go there with my friends. We would often have picnic there. While the boys would climb the tamarind tree and pick some tamarinds, I and my best friend Rima used to swing from the hanging roots. But now, look, the wood is gone. The beauty of the crop fields is spoiled by the unplanned houses built here and there."

**D      Tick the best answer.**

- 1      The rate of increase in food production cannot keep pace with the rate of population growth.  
The sentence means that the food production
  - a      is as much as needed.
  - b      is less than what is needed.
  - c      is more than what is needed.
  - d      is sufficient for the population.
- 2      How can our housing problem add to our food problem?
  - a      After making houses, farmers do not have enough time to work in the field.
  - b      After making houses, farmers do not have enough money to buy food.
  - c      If you do not have a house, you cannot store your food.
  - d      For making too many houses, people are using the crop land.
- 3      What makes our land shrink day by day mentioned in line no. 13?
  - a      Families are growing larger in size.
  - b      Houses and factories are being built on it.

- c Smaller families need smaller houses.
  - d Land grabbers are occupying portions of our land.
- 4 Many people may have to live on trees, because
- a they would like tree houses.
  - b making houses on trees is less expensive.
  - c they may not find land to make houses.
  - d tree houses are safer during floods.
- 5 People are cutting trees to
- a plant more trees.
  - b keep the environment clean.
  - c make articles of furniture.
  - d grow crops or make houses.

**E Make a list of things Ms Choudhury saw as a child in the village. Why do you think she liked them?**

**F Write a composition about your village or locality. Describe any change in the things you have noticed over the years, such as houses, fields, trees, plants, etc.**

## **Lesson 4: The story of Lipi**

**A Discuss in groups and suggest how we can control the high growth rate of our population. Check whether your suggestions include any of the following:**

- 1 Raise awareness among the people, particularly in the rural areas, about the bad consequences of having more children in the family.
- 2 Stop child marriage.
- 3 Keep the size of the family small with two children.

**B Read the story of Lipi and answer the questions.**

In the next class Ms Choudhury tells her students the story of Lipi.

The year before last, Lipi, a 14-year old girl was in class 9 in a rural school in Rangpur. Lipi is the eldest of five children---three daughters and two sons. Their father is a day labourer working on other people's land and mother is a homemaker and a part-time worker at other people's homes. The parents,

particularly the mother, found it real difficult to raise five children on the small income the father could earn. Perhaps that is why Lipi's father wanted to marry her off. But Lipi was not ready to accept what her parents wanted to impose on her. She wanted to pursue her education. Her mother stood by her, though secretly. When her father arranged her marriage with Tara Mia, the only son of a farmer in the same village, she became greatly upset. Tara Mia was a widower-illiterate, but well off. His father had a few acres of arable land and was influential in the village. The marriage seemed to be inevitable.

### **Question 1**

**Discuss in groups and agree upon an answer to this question:**

**What do you think Lipi should do? Why?**

Lipi first talked with her classmates and then with the Headteacher, who was very sympathetic to her. He called a meeting of the teachers and students of the school. He also invited the school managing committee members and some respectable persons of the village to attend the meeting. The Headteacher explained in detail the serious consequences that would follow Lipi's marriage. She would be having children from very early age – 15 or 16. It would create constant health hazards to her. Her education would stop. On top of all, her marriage against her will might shatter her future dream. At one stage, Tara Mia's father stood up and tried to argue, "You are all making mistakes. Lipi would be very happy if she got married with Tara Mia. She would have everything—money, clothes, home and status in the society. Why are you trying to deprive her of this opportunity?"

But no, the big majority, who attended the meeting, supported the Headteacher. Lipi's marriage was called off. She is now studying at Carmichael College, Rangpur.

### **Question 2**

**Make predictions. One is done for you.**

If Lipi had married Tara Mia that time, ...

- a she would have become a mother of one or two children.
- b
- c
- d

**C Fill in the blanks in the passage with will / would.**

Ms Anjali Barua, a retired college teacher, is a widow who lives in her own flat in Dhaka. At this stage of her life, she wants to do something for the people of her village in Sherpur district. Her only daughter lives in Khulna with her husband and children. Right now she is in her village home. She is writing about her future plan in a diary.

“I don’t exactly know how I should go about my plan. But one thing I know for sure, I (1) will need a lot of money for the work. If I had 5 million taka, I (2) start an adult education centre. Then if I found an expert on adult education, I (3) prepare learning materials for the people. If you ask him what the materials (4) look like, he (5) be able to explain in details. I know if the people attended the classes at the centre, they (6) learn how to read, write and count. I (7) definitely give time to this project. But to carry out the project successfully I (8) have to live in the village almost permanently. Here is a problem. Who (9) take care of my flat in Dhaka? If I had a good, reliable man, I (10) make him caretaker of my flat. But where (11) I find such a man?

**D Read the beginning of the story. Write ten new sentences to complete the story in a way you would like.**

Nahar, an 18 year old garments worker lives with her family in a slum. She dreams of having a life full of joy. One day while going to her work place, she found a piece of gold in front of the factory gate.

**Lesson 5: Let’s become skilled workforce**

**A In groups discuss the following question and give your opinion to the whole class: Why should we learn English?**

**B Read the conversation between Ratan and Rumi to find out about the importance of English.**

Rumi: You remember my brother Raihan, don’t you? He applied for a front desk job in a 5-star hotel.

Ratan: What happened? Has he got the job?

Rumi: No! He couldn't answer most of the questions in the interview.

Ratan: Why? He did well in the HSC, didn't he?

Rumi: Yes, he did. But the recruiting officer in the interview asked him questions in English and he couldn't understand most of them.

Ratan: Sorry, but I have a different story to tell you. My cousin Sheela did her HSC from a college in Mymensingh. She couldn't do as well as Raihan in her exams, but she got a job as a crew member in Biman Bangladesh. She said she had answered all the questions in English both in her written test and interview.

Rumi: Great! She must be good in English. Well, then the key to getting some jobs is English, isn't it?

Ratan: Yes, you're right.

**C Discuss in groups.**

- 1 Try to find out why English is needed for a good hotel front desk job and a flight crew member.
- 2 Choose two / three other jobs where English is needed and write why and how English is used in those jobs.

**D Read what Ms Choudhury says to her students about learning English.**

"Today there are many jobs where you need English. This is because the world has become smaller. Vast distances are shortened by speedy transports. We can talk to a person thousands of kilometers away on the phone or the Internet. So we can communicate with the whole world easily. English has made this communication easier.

There are many countries in the world with many languages, but to communicate with them, you cannot use all the languages. So you need a common language that you can use with more or less all the people in the world. English is that common language. You can talk to a Chinese toy maker, a French artist, an Arab ambassador or a Korean builder in one language—English.

English for us in Bangladesh is all the more important. As we have seen earlier, we are too many people in a small country. So if you learn English, you have the best opportunity to find a good job, both within and outside the country. And that is good news for millions of our unemployed youths."

"But Miss, we learn English for 12 or 14 years, yet we do not find good jobs," says Rumi. She then tells the class about what happened to her brother. "Could you please tell us why?" Rumi asks.

"This is a very important question, Rumi. We should learn how to use English both orally and in writing for doing things as needed in our work, such as communicating with others at personal, social, national and international levels. But unfortunately, at the moment we are learning English mainly for our exams," continues Ms Choudhury. "Remember, English can greatly help you become skilled workers."

"But where and how can we learn this kind of English, Miss?" asks Ratan. Ms Choudhury says, "We can learn English both in and outside the classroom. Besides your textbooks, the radio, television, newspapers, magazines, computers and other supplementary materials will greatly help you. During our classroom activities, we'll see how we can learn English."

**E Write a paragraph by rearranging the following sentences or sentence parts.**

- 1 You can learn a common language in and outside the classroom.
- 2 You cannot speak all the languages of different people of different countries to communicate with them.
- 3 For example, you can do businesses with a Chinese, a Japanese, a French, an Arab or a Nigerian if you know English.
- 4 Also other things like the radio, TV, computers and newspapers can help you learn English.
- 5 Therefore you need a common language, i.e. English, which is understood by people more or less all over the world.

**F Discuss in groups and write answers to these questions.**

- 1 Describe briefly the things that have made the present world smaller.
- 2 Give reasons why a common language is needed in today's world.
- 3 Why is English needed all the more in Bangladesh?
- 4 How can our youths become a skilled workforce?

**G Project: Find out how many people in your village or locality can speak or write English for communication. State their age, education and what they do.**

## **Unit Five**

# **Nature and environment**

### **Learning outcomes**

**After we have studied this unit, we will be able to**

- **comprehend and summarise texts**
- **ask and answer questions**
- **take part in debates on given topics**
- **take part in role playing and conversations**
- **draft and deliver lectures on given topics**
- **write letters to newspapers highlighting certain problems**
- **write slogans for posters.**

## Lesson 1: The greed of the mighty rivers

**A** Read the following text and answer the questions.

Meherjan lives in a slum on the Sirajgonj Town Protection Embankment. Her polythene-roofed shelter looks like a cage. She is nearly 45 but looks more than her age. In front of her shelter, she is trying to make a fire to cook the day's only meal. Her weak hands tremble as she adds some fallen leaves and straw to the

fire. The whispering wind from the river Jamuna makes the fire unsteady. The dancing flames remind Meherjan of the turmoil in her life.

Not long ago Meherjan had everything—a family, cultivable land and cattle. The erosion of the Jamuna gradually consumed all her landed property. It finally claimed her only shelter during the last monsoon. It took the river only a day to devour Meher's house, trees, vegetable garden and the bamboo bush. She had a happy family once. Over the years, she lost her husband and her family to diseases that cruel hunger and poverty brought to the family. Now, she is the only one left to live on with the loss and the pain. The greedy Jamuna has shattered her dreams and happiness.

There are thousand others waiting to share the same fate like Meherjan. Bangladesh is a land of rivers, some of whose banks overflow or erode during monsoon. Erosion is a harsh reality for the people living along the river banks. During each monsoon many more villages are threatened by the mighty rivers like the Jamuna, the Padma and the Meghna. It is estimated that river erosion makes at least 100,000 people homeless every year in Bangladesh. In fact, river erosion is one of the main dangers caused by climate change. If we can't take prompt actions to adapt to climate change, there will be thousands of more Meherjans in our towns and villages every year.

**B For each phrase below choose the meaning that is closest to the meaning used in the text above.**

1. In paragraph 3 'mighty rivers' mean
  - a rivers that have huge volumes of water and very strong currents
  - b rivers having many rowing boats in them
  - c rivers that make people cry out
  - d rivers that have strong banks
2. landed property
  - a a rented piece of land
  - b a piece of land on the bank of a river
  - c property in the form of a source of income to its owner
  - d property used only as an agricultural farm
3. whispering wind
  - a wind that blows from across the river
  - b wind that blows with a hissing sound
  - c wind that helps someone make a fire
  - d wind that blows in summer
4. dancing flames
  - a a traditional form of folk dance
  - b flames that make people dance around them
  - c flames that are made unstable by the blast of air
  - d flames made by people to remember their past

**C Ask and answer the following questions in pairs.**

- a What does Meherjan use to make fire for cooking her meals?
- b What property did Meherjan lose due to river erosion?
- c What do you know about Meherjan's family?
- d In which season is river erosion most likely to occur?
- e Why is the phrase 'greedy Jamuna' used to describe the river?  
What greed do you notice in the description?

**D Complete the summary of Meherjan's life with words/phrases from the box.**

Meherjan is a typical (1) ..... woman who lives in a slum. She lost her shelter and properties (2) ..... the erosion of the river Jamuna. She also lost her family. Her husband had died of diseases caused by poverty and (3) ..... Now, she is only a (4) ..... Like Meherjan there are many people who have become the (5) ..... of river erosion. **E Debate: Form two groups of 3/4. Decide which group will speak for/against the motion given below. In your group, first, discuss and note down five/six points to support/oppose the motion. Then select the speakers from each group to start the debate.**

**Motion:** Humans can't do anything to control the course of nature.

## **Lesson 2: Environmental pollution**

**A Look at the pictures below and discuss the questions.**

- 1 What do you see in each picture?
- 2 What are some of the common sources of environmental pollution?
- 3 Which of these sources are most threatening for your environment?

Picture 1

Picture 2

Picture 3

Picture 4

**B Now read the following passage to know more about environmental pollution in Bangladesh.**

Bangladesh is now in the grip of all sorts of pollution like air pollution, soil pollution and water pollution. The dwellers of the urban areas are the worst sufferers of such pollution. The indiscriminate industrialisation process in Bangladesh over the past decades has created significant environmental problems. We will now read about some of the most common types of environmental pollutions and ways of coping with them.

**Air pollution**

Air pollution comes from a wide variety of sources. In Bangladesh poisonous exhausts from industrial plants, brick kilns, old or poorly-serviced vehicles and dust from roads and construction sites are some of the major sources of air pollution.

We can minimise this type of pollution by making less use of motor vehicles and avoiding the use of vehicles older than 20 years. We may also use proper lubricants to lessen the level of emission and pollutants. We can encourage people to use Compressed Natural Gas (CNG) or Liquid Petroleum Gas (LPG) for fuelling their cars. The government may relocate hazardous industries like brick kilns to areas away from human habitations.

### **Water pollution**

Water pollution can occur in oceans, rivers, lakes, ponds and underground reservoirs. As different water sources flow together, the pollution can spread easily and quickly. Causes of water pollution include:

- increased sediment from soil
- erosion
- improper waste disposal and littering
- leakage of soil pollution into water supplies
- organic materials that decay in water supplies

In fact, polluting the land means polluting the water. Throwing away a toxic substance on the ground near a water source means it eventually reaches the body of water. As a result, the water is polluted. Industrial wastes must not be disposed in rivers or lakes. We need to be more careful about disposing household wastes too. Use of pesticides means that when it rains, chemicals used in the lawn or garden wash into the water bodies. Therefore, we must be aware of the dangers of using pesticides as they may pollute our rivers, canals and lakes.

### **Soil pollution**

Among the most significant causes of soil pollution is the enormous volume of industrial waste which is being produced every day but not disposed properly. The mismanagement of household wastes, particularly the polythene shopping bags, has caused serious threat to the soil and the drainage system. Another cause for soil pollution is the use of agricultural pesticides, fertilizers, etc. Sometimes fuel leakages from automobiles may get washed away by rain and seep into the nearby soil.

Pesticides and fertilizers are useful for plant growth but their overuse has led to soil pollution. Natural fertilizers and compost can be used instead of their chemical alternatives. Recycling is another way to reduce and control soil

pollution. Recycling papers, plastics and other materials reduces the volume of refuse in landfills. De-forestation also causes erosion, pollution and the loss of fertility in the topsoil. Planting trees and re-forestation help prevent soil erosion and pollution.

**C From your reading of the above text complete each blank space in the table with no more than two words and/or numbers.**

<b>Pollution</b>	<b>Causes</b>	<b>Suggestions</b>
Air pollution	<ul style="list-style-type: none"> <li>• Toxic smokes from .....plants</li> <li>• Vehicles which are old and poorly .....</li> <li>• Smoke from the ..... fields</li> </ul>	<ul style="list-style-type: none"> <li>• Don't drive motorcars which are older than ..... years.</li> <li>• Use car lubricants of good quality to keep the ..... level minimum.</li> </ul>
		<ul style="list-style-type: none"> <li>• Use CNG or LP gas as car .....</li> </ul>
Soil pollution	<ul style="list-style-type: none"> <li>• Industrial wastes not ..... properly.</li> <li>• Use of ..... shopping bags</li> <li>• Use of agricultural pesticides and .....</li> </ul>	<ul style="list-style-type: none"> <li>• Use compost for agricultural purpose.</li> <li>• ..... paper, plastics, and other materials.</li> <li>• Plant more trees to help prevent loss of fertility in the .....</li> </ul>

**D In groups of four, prepare a summary in 100 words of the topic below. First, work together to prepare a draft. When the draft is complete, select a group member to read it to the class.**

**Topic:** Polluting the land means polluting the water

**E Look at the three posters below. What messages do they give? Which one do you like the most? Tell your friend why you like it.**

### **Lesson 3: Man and climate**

**A Discuss the questions in pairs.**

- 1 Can man influence the climate? If the answer is yes, explain how?
- 2 Which human activities are responsible for increasing carbon dioxide in the atmosphere?
- 3 How can trees help save our environment?

**Now read the text below and find answers to the above questions.**

Humans can neither change the sun's radiation nor the earth's orbit around the sun. But they can control the increase in the amount of greenhouse gases and its effect on the atmosphere. Only during the last hundred years the carbon dioxide concentration has been raised alarmingly in the atmosphere and we humans can be held responsible for this.

The main cause of the increase in carbon dioxide level in the atmosphere is the burning of fossil fuels. Since the end of the 19<sup>th</sup> century, industrial activities increased rapidly giving rise to many factories. These factories required energy, which was produced through the combustion of coal. Besides coal, other sources of energy such as mineral oil and natural gas were also burned to heat our houses, run cars and airplanes or to produce electricity. Nowadays, about 85 million barrels of crude oil are burned daily. Every time a fossil raw material is burned, it releases carbon dioxide into the air.

Therefore, it is clear that more and more greenhouse gases like carbon dioxide are being generated worldwide by humans. Moreover, we are also strengthening the greenhouse effect by deforestation, which means cutting down trees. Every year enormous areas of forests are destroyed by people to obtain wood and to clear regions for mining and to create pasture. This loss of the forest causes dual problems. Trees that are burned up release large volumes of carbon dioxide gas into the air. On the other hand, as forests absorb a lot of carbon dioxide from the air and deliver oxygen instead, we also destroy an important storehouse of carbon dioxide when we clear forests.

**B Read the statements below and say if they are true/false. If false, give the correct information.**

- 1 Fossil fuels are burned at an alarming rate due to industrialization.
- 2 Coal is the only fuel used for generating energy.
- 3 At present, nearly 85 million barrels of crude oil are used weekly.
- 4 Deforestation is caused by nature.
- 5 Forests help consume carbon dioxide gases from the air.

**C Match the meanings in column B and the words/phrases in column A.**

A	B
1 Sun's radiation	a. energy that is transmitted from the sun in the form of rays or waves or particles
2 Fossil fuels	b. the process used by plants to convert light energy captured from the sun to chemical energy
3 Combustion of coals	c. a basic material or substance used in the production or manufacturing of goods
4 Crude oil	d. non-renewable sources of energy that come from the remains of plants and animals

5 Raw materials	e. intentional destructions or removal of trees and other vegetations for agricultural, commercial, housing or firewood use
6 Deforestation	f. a naturally occurring, unrefined petroleum product that can be refined to produce usable products such as diesel, gasoline, heating oil, jet fuel, kerosene, etc.
7 Photosynthesis	g. burning of coal usually in industrial plants.

**D Write a letter to the Editor of a newspaper expressing your concern about growing deforestation in your area. Describe how deforestation is changing your environment. Also suggest what actions could be taken to stop cutting down trees. Follow the clues below.**

- dangers caused by deforestation
- increase of carbon dioxide in the atmosphere
- the greenhouse effect
- making people aware of the adverse effect of deforestation
- making an action plan to stop deforestation

**E Look at these posters below. They are made to make people aware of the dangers of deforestation. In groups, design a poster to show the dangers caused by deforestation. Then write a slogan for the poster.**

## Lesson 4: Putting our fish in hot water!

**A Spend one minute thinking about your life as a fish. In pairs, talk to another “fish” about your life as a fish.**

**B Do you agree with the following statements on fish and fishing? Discuss with your partner(s).**

- a Fish will never disappear. There will always be enough fish to feed the world.
- b In many ways, people are like fish.
- c The hobby of fishing should be banned to help protect fish population.

**C Read the text below and say if the statements that follow are true/false. If false, give the correct information.**

Fish population is in serious danger from global warming. Climate change is increasing the water temperature in rivers, lakes and seas. This means there is less food and oxygen available for fish. It also means the fish may not grow fully and may have fewer offsprings. Some fishes will become extinct if temperatures rise even by one or two degrees Celsius.

Climate change increases the pressure on fish population. Fishes are one of the world's most valuable biological assets. Forty percent of people in the world eat fish as their main source of protein. If we fail to reduce greenhouse gas emissions, we will increase the pressure on fish. As a result, people who depend on fish will suffer from hunger and poverty.

### Statements:

- 1 Global warming will kill all the fishes within ten years.
- 2 Some fishes can not reproduce if the water is too warm.
- 3 A two degree Celsius rise in temperature will make some species extinct.
- 4 Fishes are valuable economic investments.

5 Nearly 14% of people depend on fish for their basic food needs.

6 People will suffer a lot if greater pressure is put on fish.

**D Role play: Student A is a fish. Student B is a fisherman. First write a dialogue between the two. Then act it out. Change roles and repeat the role-play**

**Role A – A FISH**

I am a fish. I know things are getting serious. Ice is melting, rivers are drying up and millions of my cousins have disappeared because of over-fishing. I heard it is because of humans' carelessness and greed. Let the humans know what is really happening in the oceans and rivers.

**Role B – A FISHERMAN**

I am not worried about my future. I have seen no change in the number of fish I catch each year. There will always be plenty of fish. The oceans are too big to be changed by global warming. I think that scientists produce reports just to become famous.

**E You are a nature lover. Write a letter to the organizers of the National Climate Change Conference in Bangladesh. Tell them about how global warming is changing your environment. Also suggest what they can do to help save fish population.**

## **Lesson 5: A friend of the Earth**

**A Discuss the questions in pairs.**

- 1 Do you throw away empty cans and bottles?
- 2 What do you do with your old newspapers?
- 3 What happens to the garbage after you throw it away?

**B      Read the following text carefully to know about how we can save our environment.**

### **LET'S SAVE OUR PLANET!**

Everyone must play a part in protecting the environment. There are many things you can do on your own every day to help save the planet. Here are some suggestions.

#### **REDUCE!**

Really, the best thing we can do for the planet is to use its resources properly. Our consumer society is mainly responsible for the environmental crisis. Here are some questions you can ask yourself before buying something, "Do I really need this?" or "Is there another product which would do the same thing but is more sustainable?" Or ask the question, "Will this last a long time?" Some other questions may be, "Do I know how this item was made, how it will be used and how it will be disposed of?"

#### **REUSE!**

What do you think of using your own ceramic cup or mug at your school or local club? It means there are no plastic cups to throw away. You can wash it and reuse it every day. Unfortunately, we are encouraged to buy a new "improved" item even if the one we have can be repaired or reused. When we buy things, we should buy those that are durable; we should use them properly, and have them repaired when necessary. If we practise this, many things will not only last a life-time, but also be passed on for future use. However, if something is truly unusable for its original purposes, try to be more creative and think of how else it might be used. When you're done with it, think of whether someone else might be able to use it. You can donate some of the things to the poor. You may also sell some of your used items through personal ads in a local newspaper.

#### **RECYCLE!**

Rather than throwing an item out when neither you nor anyone else can make use of it, have it recycled. And if recycling is not possible, it is better to send goods to a landfill or have them burned up. Find out what types of materials can be recycled in your area. Clean and sort the materials before putting them out in the bin. Recycling your drink and food cans means there will be less trash in a resource recovery facility or landfill. Moreover, a company can use the old cans to make new ones.

**C Now ask and answer these questions in pairs.**

- 1 How can you cut down your shopping list?
- 2 What can you do to reuse things?
- 3 What kind of household goods, clothes and toys, can be donated?
- 4 How can you sell your used items?
- 5 How recycling may help save our environment?

**D Complete the blank spaces in the table below.**

	<b>What is it</b>	<b>Examples</b>

## Lesson 1: Nepal, the land of Everest

### A Read the following passage on Nepal.

#### a Known as the Land of Everest,

Nepal is one of the most charming countries in Asia. The Kingdom of Nepal is a small land of sublime beauty. It has some of the world's best and very important temples. It is a country that is rich in scenic beauty and cultural heritage.

- b Nepal lies between India and the Tibetan part of China. This small country has an area of 147,181 square kilometers. Southern Nepal is tropical low land known as the *Terai Plains*. This part of Nepal has hot summers and warm winters. Here the temperatures reach up to 40°C in April and May and monsoon rains drench this region from June to September. The central hill-lands including the Kathmandu and Pokhara valleys have a temperate climate and are also influenced by the monsoon. North of that is the slope of the main section of the Himalayan range. This part of Nepal has some of the highest peaks of the world including Everest.

- c Nepal is home to nearly 29,000,000 people. The population is primarily rural. Kathmandu, the capital city, has less than one million inhabitants. Nepal's demographic features are complicated not only by dozens of ethnic groups, but by different castes. In total, there are 103 castes and ethnic groups living in this small country. The two largest of such groups are known as *Chetri and Bahun*. Others include *Magar, Tharu and Tamang, Newar, Muslim, Gurung and Damai*. About 48 percent of the people speak Nepali. Among other languages spoken are *Maithali, Bhojpuri, Tharu and Tamang*.
- d Nepal is the holy land of Lord Pashupatinath and Gautam Buddha where the Hindus and Buddhists have lived together in harmony for centuries. The Temple of Pashupatinath is the most sacred Hindu shrine and one of the four most important sites in the world for Shiva worshippers. Lord Buddha, the light of Asia, was born in Lumbini in Nepal's southern plains, which makes this a sacred pilgrimage destination for the Buddhists as well. In fact, many Nepalese combine Hindu and Buddhist practices; many temples and shrines are shared between the two faiths, and some deities are worshipped by both Hindus and Buddhists.
- e The Kathmandu Valley is the richest cultural heritage centre of Nepal. The three ancient cities of the Valley - Patan, Kathmandu and Bhaktapur - represent an epitome of harmony in urban design, elegant architecture and refined culture. These cities are famous for religious monuments unequalled in the world. The seven monument zones situated within the Valley have been named as World Heritage Sites by UNESCO.
- f Many festivals add dazzling colour to Nepal's vibrant culture, which are celebrated throughout the year. *Dasain or dusherra* is celebrated nationwide in October. This is the most important of all Nepalese celebrations and includes the biggest animal sacrifice of the year. *Tihar* is celebrated in November. Other festivals include the Holi and Chaitra Daisan. Some Hindu festivals are the *Haribodhini Ekadashi, Maha Sivaratri and the Krishna Jayanti*. There are Buddhist celebrations too and those include *Mani Rimd, Buddha Jayanti and Losar*, which marks the Tibetan New Year.

**B The passage has six paragraphs (a-f). Choose the most suitable headings for paragraphs (a-f) from the list of headings below. There are more headings in the box than the paragraphs, so you will not use all of them.**

## Lesson 2: Sri Lanka: The pearl of the Indian Ocean

### A Discuss these questions in pairs.

- 1 Which country is often known as the Pearl of the Indian Ocean?
- 2 Which country is the world's largest tea exporter?
- 3 Which country did the spice cinnamon originate from?
- 4 Which country was mentioned in the great Indian epic the *Ramayana*?
- 5 Which country has the highest literacy rate in South Asia?

### B Now read the following passage to find your answers to the questions in A.

- a Anyone visiting Sri Lanka may often hear the word *Ayubowan*. This word means 'May you have the gift of long life'. It is with this traditional greeting that everyone is welcomed to Sri Lanka. Sri Lanka is variously known as: Serendip, Ceylon, Teardrop of India, Pearl of the Indian Ocean, etc. These names reveal the richness and beauty of this island nation. Many travellers, from ancient mariners and merchants to present day tourists, have been attracted by the beauty of this island.

- b Sri Lanka is located in the Indian Ocean, just off the south-eastern coast of India. Shaped like a teardrop, the island of Sri Lanka measures about 415 kilometers from north to south, and about 220 kilometers from east to west, with a total land area of about 65,600 square kilometers. It has more than 1340 kilometers of coastline.

- c Despite its modest size Sri Lanka has a population of about 20 million. Sri Lanka is a multi-religious, multi-racial and multi-lingual country. The four major ethnic groups are the Sinhalese, Sri Lankan Tamils, Indian Tamils and Sri Lankan Moors or Muslims. A fifth group, the Veddhas are the original inhabitants of the island. The ancient history of Sri Lanka is depicted in the Hindu epic the *Ramayana*. But the most important work on Lankan origin is related in Mahavamsa or 'The Great Chronicle'.

Colombo: The capital city

- d Sri Lanka's economy has traditionally been based on agriculture. The emphasis is on exporting crops such as tea, rubber, and coconuts. In fact, Sri Lanka is the largest tea exporter of the world. The country is also a major producer and supplier of a variety of spices such as cinnamon, cardamom, pepper, cloves, and nutmeg. Cinnamon first originated in Sri Lanka and was introduced later to the world by the Arab merchants.
- e Sri Lanka's archaeological treasures may be compared to other civilizations of the past like the Golden Age of Greece, the Roman Empire and Mayan

citadels. The culture that followed those glorious pasts has been enriched by the more recent influences of Western colonizers and Eastern traders. That resulted in developing a unique mix of races and religions, arts and crafts, festivals and costumes in this small country.

Besides the man-made riches, one may find the God-given blessings of nature in Sri Lanka. The island is circled by azure seas and is blessed with sandy beaches, green hills, cascading waterfalls, abundant wildlife and a variety of flowers and fruits. The country abounds with coconut groves, spice gardens, tea estates and many other gardens and woods. Travellers from all over the world come to Sri Lanka. Here, a weary traveller can pass a relaxing day by a palm-shaded lagoon looking at the endless ocean. And for the adventurous, days can be full of excitement snorkelling, swimming, fishing or sailing.

**C From your reading of the above text complete the table with no more than two words and/or numbers.**

**Bundala National Park**

Bundala National Park is one of Sri Lanka's leading destinations for birdwatchers. The park is also home to large populations of elephants, crocodiles, turtles and leopards.

### Hikkaduwa—Coral reef & sandy beaches

Hikkaduwa is a little town on the south coast of Sri Lanka. It is well-known for its beach and corals. It is principally a tourist destination, and serves as a great beach with options to surf, snorkel and enjoy the sun.

### Dambulla

Major attractions of this city include the biggest and greatest potted cave temple complex of Sri Lanka. It is also famous for the Rangiri Dambulla Global Stadium, which was built in just 167 days. The city also boasts of the biggest rose quartz mountain range in South Asia and the iron wood forest.

**Now discuss the following questions in pairs.**

1 Which of the following tourist places do you like to visit?

- Places with beaches
- Places of historical importance
- Places that preserve wildlife

Explain why you like such a place.

2 If you are given an offer to visit any two of the four Sri Lankan cities above, which two cities will you choose. Explain why.

**F Write a paragraph on some of the interesting places to visit in Sri Lanka. Use your own words and the information given in section E.**

## Lesson 3: The Maldives

**A Discuss the questions in pairs.**

1 Have you ever visited any island or seen any island on TV?

2 Have you ever heard of a coral island? Is there any coral island in Bangladesh?

3 What do you know about the Maldives?

**B Now read the text below and answer the questions that follow.**

The Republic of Maldives is an island country in the Indian Ocean. It has 1199 islands that are clustered into 26 major atolls. An atoll is a ring-shaped coral reef or a string of closely spaced coral islands. The natural coral reefs of the Maldives are surrounded by the sea all around and stand out as a pearl in the Indian Ocean. The Maldives is the eighth smallest country in the world with an area of only 300 square kilometers . It is the smallest Asian country in terms of population and size.

People have been living on the islands of the Maldives for nearly 3000 years. They set sail from different parts of the world – Asia, Arabia, Europe and America – to come to these islands. The earliest settlers of the Maldives were probably from southern India and Sri Lanka who came to these islands in the fourth and fifth centuries BC. In the 12th century AD, sailors from East Africa and Arab countries came to the Maldives. As a result, the Maldivians who were originally Buddhists were converted to Sunni Islam in the mid-12th century. In 1344 Ibn Batuta, a famous Arab historian and scholar travelled around the Maldives.

In the 16th century, the Portuguese conquered the Maldives and ruled the country for 15 years. Although governed as an independent Islamic sultanate for most of its history from 1153 to 1968, the Maldives was a British colony from 1887 to 1965. Following independence from Britain in 1965, the sultanate continued to operate for another 3 years. On November 11, 1968, the sultanate was abolished and replaced by a republic and the country assumed its present name.

The Maldives is famous as a tourist destination because of its pleasant weather, heavenly beaches and lagoons, luxurious holiday resorts and the peace-loving people. The Maldives was ranked as the best country for beautiful beaches and

facilities for recreation in 2008.

The Maldives is well known for being the lowest country in the world. Unfortunately, this small country with idyllic natural beauty is under threat from rising sea levels due to global warming. Most of the country is just 1.5 meters above sea level with the highest point of 2.3 meters! Many predictions have been made with respect to Maldives being swept away by the rising water level in the Indian Ocean. When the power tsunami of 2004 hit the island nation, many of the island's dry parts were flooded by the sea water. The government of the Maldives has begun to purchase land from nearby countries for resettling its people in case the islands go under water! In order to highlight the threats of global warming to its low lying islands, the government of Maldives held a cabinet meeting underwater in 2009. That was the first ever underwater cabinet meeting in the world. The meeting took place about 5 meter underwater, in a blue-green lagoon on a small island. While underwater, the cabinet signed a document calling on all nations to cut their carbon emissions.

**Underwater meeting**

**C Ask and answer the questions.**

- 1 What is an atoll?
- 2 How many countries in the world are smaller than the Maldives in size?
- 3 When was Islam introduced in the Maldives?
- 4 What makes the Maldives an ideal place for the tourists?
- 5 What dangers of climate change might affect the Maldives?
- 6 Do you support the idea of having a cabinet meeting underwater?  
What could be the reason for holding such a strange meeting?

**D Complete the table with no more than two words and/or numbers.**

Time	Facts
4 <sup>th</sup> and 5 <sup>th</sup> centuries BC	The early inhabitants of the Maldives arrived and settled from Southern India and Sri Lanka.
12 <sup>th</sup> Century	The sailors from African and Arab countries started to settle in the islands. Buddhism was ..... by Islam.
-----	A famous scholar and historian named Ibn Batuta visited the islands of the Maldives.

1887	Beginning of the British ..... era.
-----	Maldives became independent from the British rule.
1968	End of Islamic sultanate and ..... of the Republic of Maldives.

**E Say if the statements are true or false. Give the correct information in case of a false statement.**

- Only seven countries in the world are smaller in size than the Maldives.
- No other South Asian country has a population smaller than the Maldives.
- The islands of the Maldives were inhabited in the 12th century.
- The Maldives was an independent Islamic sultanate from 1153 to 1968.
- The Maldives was ranked as the second best country for natural beauty in 2008.

## Lesson 4: India: Unity in diversity

**A Read the following text and answer the questions.**

India is our closest neighbour. It is the largest among South Asian Countries. In fact, India is the seventh largest country in the world with an area of 3,287,590 square kilometers. India is bounded by the Indian Ocean on the South, the Arabian Sea on the West and the Bay of Bengal on the East. It is bordered by Pakistan to the West; China, Nepal, and Bhutan to the North; and Bangladesh and Myanmar to the East. India is the world's second most populous country after China. Its population is around 1.5 billion. New Delhi is the capital of India and about 13 million people live in the city.

India is a land of ancient civilization. The social, economic and cultural diversity of this vast country is the result of invasions by different races in the process of history. Indian history begins with the birth of the Indus Valley Civilization and the coming of the Aryans. During this period, Aryan culture flourished in this part of the world. The fifth century saw the unification of India under Ashoka, and it is in his time that Buddhism spread in many parts of Asia. In the eighth century, Islam came to India for the first time and by the eleventh century it had firmly established itself. In 1206, Qutbuddin Aybek founded the Delhi Sultanate. This was finally succeeded by the Mughal Empire in 1526, under which India once again achieved a large measure of political unity.

It was in the 17th century that the Europeans came to India. This coincided with the disintegration of the Mughal Empire, paving the way for supremacy of the English, the French, the Dutch and the Portuguese who were vying with each other to gain control of India. The English emerged as the 'victors'. In 1774, Warren Hastings was appointed the first Governor General of India by the East India Company. In 1876, Queen Victoria was given the title 'Empress of India' by the British Parliament and India came under the British rule. The British ruled India for nearly two hundred years. This period was marked by India's struggle

for independence. Through a series of heroic and patriotic movements to restore freedom, India got its independence in 1947.

The culture of India is one of the oldest and the most unique in the world. There is amazing cultural diversity throughout the country. The South, North, and Northeast have their own distinct cultures and almost every state has carved out its own cultural distinction. There is hardly any culture in the world that is as varied and unique as India. There are 17 major languages and 844 dialects used by the people of India.

India is a tourists' delight. The Taj Mahal, Fatehpur Sikri, the Qutb Minar and the Red Fort are a few of the many wonders which attract people from all over the world. Kashmir has been described as a paradise on earth. The country of mountains, valleys, deserts, rivers and lakes offer the richness of a mini

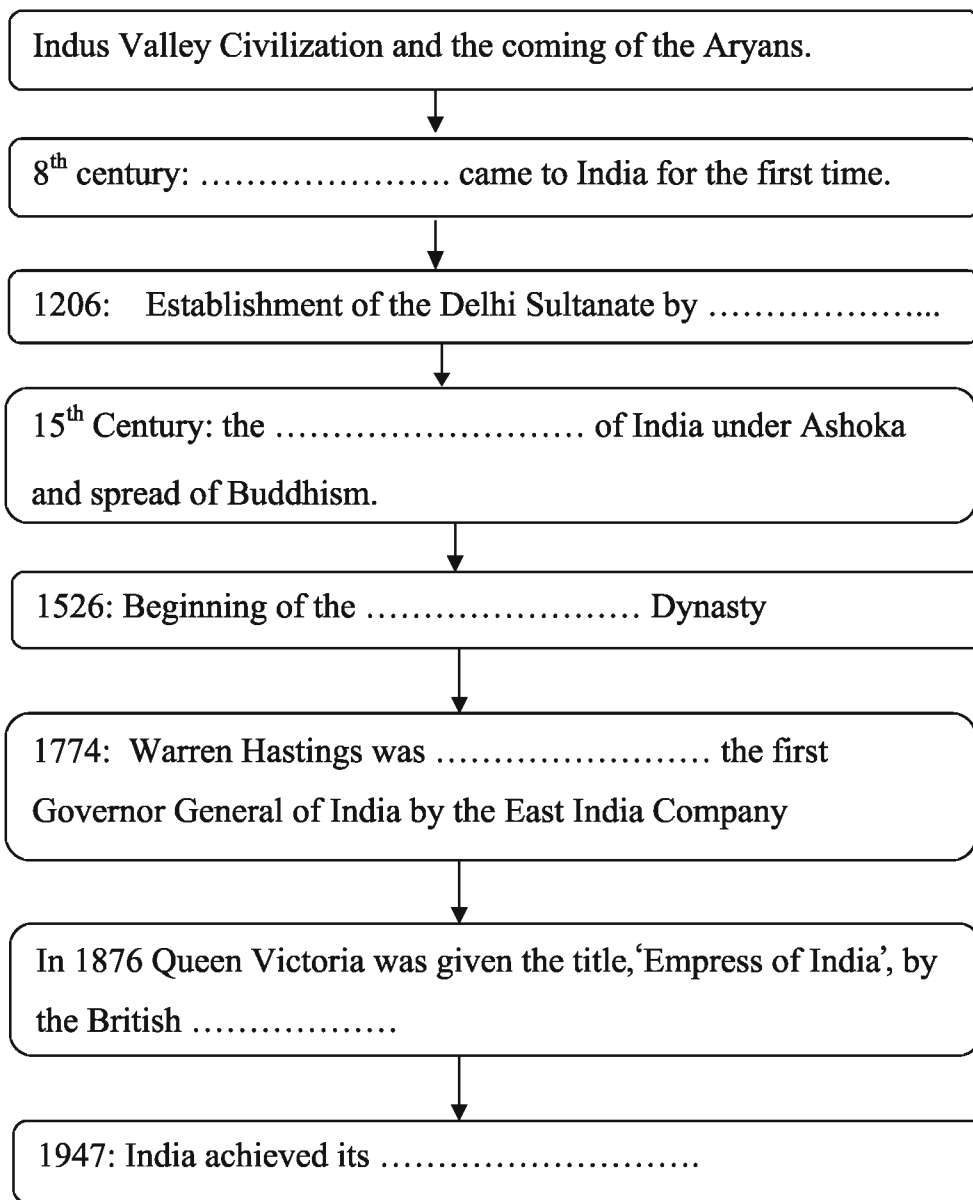

The Tajmahal

world within a single country. The Nilgiri mountains, hill stations like Ooty and Darjeeling and the temples of South India, Ajanta and Ellora caves are the places one can explore in India.

**B      Discuss the following questions in pairs.**

- 1    What do you know about the population and geographical area of India?
- 2    When did Buddhism spread in India?
- 3    What happened to India during the Mughal Empire?
- 4    What are some of the tourist attractions in India?

**C      Complete the flow chart below to show the history of India. Use one word to fill in each gap.**

## Lesson 5: Bhutan: The land of happiness

### A Read the following text and answer the questions.

Bhutan is called the Jewel of the Eastern Himalayas. This small, landlocked country is located along the southern slopes of the Himalayan range, bounded by Tibet in the North and India from the other sides. The official name of Bhutan is *Druk-yul* which means 'land of the thunder dragon'. It earned this name because of the fierce storms that often roll in from the Himalayas. The country

has an area of 38,394 sq km and a population of 716,896. Since it is cut off from the rest of the world by the Great Himalayas, a unique culture and tradition based on gentle Buddhist beliefs have evolved there over time.

Bhutanese men wear Gho – a knee length robe – and women wear Kira – a sheet like cloth piece.

Bhutanese houses are built from mud and stone, with wooden shingle roof. The Bhutanese never use iron nails in their buildings. Usually, the Bhutanese build each other's houses by exchanging labour within the community. Different Festivals are celebrated all year round in Bhutan. Colourful masks are used in the festivals which reflect the rich Bhutanese culture. Dances are performed by the Buddhist monks to protect the valleys and ward off evil spirits. The main religious festival is called *Tshechus*. The teachings of Lord Buddha are enacted through mask dances for three to five days in the courtyard of the monasteries. People attend these events in their best clothes, carrying picnic baskets. Another major festival is called *Losar*. It is celebrated on Lunar New Year. People cook special dishes and wear new clothes. It is a time for family get-together. Men play archery or darts while women sing and dance.

Pure mountain air, crystal blue skies and pristine vegetation cover have made this small country an ideal destination for the environment lovers. The ecosystem of this small nation supports the existence of rich flora and fauna which are protected by strict laws. Anyone found guilty of killing even a black-necked crane could be sentenced to life in prison.

The government of Bhutan has taken a number of steps to protect its bio-diversity.

A Bhutanese family in traditional clothes

Bhutan is the first country in the world with specific constitutional obligations on its people to protect the environment. According to the constitution, at least 60 percent of the country must remain under forest cover at all times. Efforts are also taken to protect the nation against the intrusion of foreign cultures and values. The first foreign tourists were allowed into Bhutan in 1974. Now, tourism is encouraged but is controlled and limited to about 6,000 visitors a year. Bhutan is one of the last countries in the world to introduce television and the Internet to its people. The government lifted a ban on TV and the Internet only in 1999. The Bhutanese government has made it mandatory for all Bhutanese to wear only their national dress in public.

Finally, the most interesting fact about Bhutan is that they are the only country that measures success in Gross National Happiness rather than Gross National Product! In 2006, *Business Week* rated Bhutan as the happiest country in Asia and the eighth happiest country in the world.

**B Choose the most suitable answer for each of the questions below.**

- 1 A unique culture and tradition has evolved in Bhutan because

## Lesson 1: Zainul Abedin, the great artist

### A Read the text and answer the questions that follow.

The pioneer of Bangladeshi modern art Zainul Abedin is widely acclaimed for his Bengal 'Famine Sketches'. Through the series of sketches, Zainul not only documented the harsh famine of 1943 but also showed its sinister face through the skeletal figures of the people destined to die of starvation in a man-made plight. He depicted these extremely shocking pictures with human compassion. He made his own ink by burning charcoal and used cheap ordinary packing paper for sketching. Using the ink and applying the brush where necessary, he produced the drawings and sketches which later became iconic images of human suffering.

Zainul developed a knack for drawing and painting when he was a high school student. After completing high school, he took admission in the Government School of Art, Calcutta (now Kolkata). He graduated with the first position in first class in 1938. He was appointed a teacher of the Art School while he was still a student there. He also attended the Slade School of Arts, London during 1951-52.

Zainul Abedin is considered the founding father of Bangladeshi art. He was an artist of outstanding talent and earned international reputation. For his artistic and visionary qualities, he is referred to as *Shilpacharya* meaning 'great teacher of art' in Bangladesh. He was the first Principal of the first art school in Dhaka in East Pakistan (now Bangladesh). He organized the *Nabanna* (harvest) exhibition in 1969. The exhibition included a 65 feet long scroll portraying the rural East Pakistan in phases from abundance to poverty. This intensified the already heightened non-cooperation movement against the Pakistan regime. The exhibition was symbolic of the Bangalee artists' protest and a milestone in our struggle for cultural and political freedom. Zainul's dynamic style of work is evident in a 30 feet long scroll painting called *Manpura*, which was done to commemorate the death of hundreds and thousands of people in the devastating cyclone of 1970.

He designed the pages of the Constitution of the Bangladesh. He founded the Folk Art Museum at Sonargaon, and also Zainul Abedin Shangrahasala, a gallery of his own works in Mymensingh in 1975.

The river Brahmaputra played a vital role in his paintings and was a source of inspiration all through his career. Much of his childhood was spent near the scenic river Brahmaputra. A series of water colours that Zainul did as his tribute to the river earned him the Governor's Gold Medal in an all-India exhibition in 1938. This was the first time that he came into spotlight and this award gave him the confidence to create his own visual style.

Zainul Abedin was born in Kishoreganj on 29 December 1914 and died in Dhaka on 28 May 1976.

[adapted from *The Daily Star*: Thursday July 16, 2012]

### Questions

- 1 Write in detail how Zainul Abedin portrayed the sufferings of people.
- 2 What influence did the river Brahmaputra have on Zainul Abedin? How did he show this influence in his works?
- 3 What did these works earn him in his life?
- 4 How did his art help to intensify the noncooperation movement against the Pakistani regime?

**Lesson 2: The art of silence**

**A Look at the above pictures of Partha Pratim Majumder. Work in pairs and discuss the following questions.**

- 1 What is Partha Pratim Majumder doing in the two pictures?
- 2 Describe his facial expressions.
- 3 Describe his physical features i.e. his age, how he looks, what he is wearing, his hair style, etc.

**Now write a short description of Partha Pratim Majumder.**

**B Read the text and choose the correct answer.**

Before the beginning of human language, communication took place between humans through signs and gestures. As humans began to use their vocal chords, these silent gestures were no longer used as the primary means of communication. But these did not completely disappear. They evolved as a form of art which came to be known as 'mime'.

In a Bangladeshi village, a little boy came to know about mime as he watched a performance in his village. He was so fascinated by the show that he was determined to master this art. The name of that little boy was Partha Pratim Majumder.

Majumder is undoubtedly a forerunner in the field of mime in Bangladesh. He started as a musician and his keen sense of rhythm helped him to let his limbs move and express his thoughts through gestures.

Partha Pratim Majumder is the first Bangladeshi to take up mime as a profession. He performed in a number of television shows in Bangladesh and gained popularity. In his mimes, Majumder depicted the day-to-day life of the people—their sadness, tears as well as their happiness and laughter.

Majumder's turning point came in 1979, when he was asked to give a solo performance at Bangladesh Shilpakala Academy. The French ambassador to Bangladesh at the time, Mr. Loic Moreau happened to be among the audience. Mr. Moreau noticed the talent in Majumder. In 1981, the French Government offered him a scholarship so that he could get professional training in mime. This was the first time that a student was granted a French scholarship in mime. Majumder started his training under the legendary maestro, Etienne Decroux. Through Decroux, he met another celebrated mime artist named Marcel Marceau. Marceau has transformed modern mime by taking it to an unimaginable height.

Marceau was very impressed by the young Bangladeshi talent and offered him a place in his school for mime, named 'Ecole Internationale de Mimodrame de Paris Marcel Marceau'. This mime school is the biggest and the best in the world.

During his three year training period, Majumder practised 16-18 hours daily till each and every bone in his body would feel like breaking.

After his time with Marceau, there was no looking back for Majumder. He staged solo performances in England, Belgium, Germany, Spain, Italy and the USA. French, Canadian and American TV channels enthusiastically aired his shows.

In 2009, a French play featuring Majumder won the "Moliere Award" which is the highest distinction in the French Theatre.

As a pioneer of the art of mime in Bangladesh and for popularizing the artistic genre, Bangladesh Government honoured the artiste with the "Ekushey Padok" in 2010.

The Government of France has also honoured him for his contribution to the art of mime throughout the world with one of the highest cultural awards of France titled "Chevalier de l'ordre des Arts et des Lettres" (Knight in the order of Arts and Letters) in the year 2011.

## Lesson 3: Flashback

### A Read the text and match column A with column B below.

Partha Pratim Majumder was born in 1954 in Pabna to a family of artistes. He spent most of his early years in his big ancestral home, situated in a small locality known as Kalachandpara. At that time Kalachandpara was well known for its cultural activities. There were festivals and various types of cultural shows round the year. Majumder's father, a photographer by profession was an art lover. He taught and inspired his son to appreciate different forms of art.

Majumder went to live with his aunt in Chandernagar, 30 kilometers away from Kolkata in 1966. It was there that he first came across a mime artiste named Jogesh Dutta. The way Dutta narrated stories without uttering a single word, left Majumder spellbound. He took lessons on mime from Dutta in his mime academy in Kolkata from 1966 to 1972.

## Lesson 4: The beginning

### A Read the text and choose the best answer.

It was late summer, 26 August 1910. A little girl was born to a rich Catholic merchants' family of Albanian descent in a small town called Skopje, Macedonia. She was the youngest of the three siblings and was named Agnes Gonxha Bojaxhiu. Who could imagine at the time that this little girl would one day become the mother of humanity, loving and serving the poorest of the poor. Yes, we are talking about none other than Mother Teresa.

At the age of 12, she heard a voice from within that urged her to spread the love of Christ. She decided that she would be a missionary. At the age of 18 she left her parental home. She then joined an Irish community of nuns called the Sisters of Loreto, which had missions in India.

After a few months of training at the Institute of the Blessed Virgin Mary in Dublin, Mother Teresa came to India. On May 24, 1931, she took her initial vows as a nun. From 1931 to 1948, Mother Teresa taught geography and theology at St. Mary's High School in Kolkata (then Calcutta). However, the widespread poverty in Kolkata had a deep impact on Mother Teresa and in 1948 she received permission from her superiors to leave the convent and devote herself to caring for the poorest of the poor in the slums of Kolkata.

- 1 What does 'mother of humanity' mean in the text?
  - a a good mother
  - b a kind mother who has many children
  - c a mother who likes humans
  - d a mother figure who serves the poor like her own children

- 2 Why did Mother Teresa want to be a missionary?  
Because she heard
- a the voice of her neighbours discussing it.
  - b a voice in her dream.
  - c a voice within herself.
  - d the voice of her parents talking about it.
- 3 Mother Teresa set out to join the missionary of the Sisters of Loreto in the year
- a 1927.                      b. 1928.
  - c 1929.                      d. 1930.
- 4 Mother Teresa took her first vows as a nun at the age of
- a 18.                      b. 19.
  - c 20.                      d. 21.

**B Read the text in A again and answer the questions.**

- 1 Where did Mother Teresa's ancestors come from?
- 2 Where was her father's home?
- 3 Why did she want to become a missionary?
- 4 What made her different from other girls at such an early age? What words and expressions are used in the text to describe this difference?
- 5 What did Mother Teresa do in the first seventeen years in India?

**C Look at the picture and talk about her in pairs.  
Take the help of the questions given below.**

## Lesson 6: Love for humanity

**A** Look at the picture and talk about it in pairs.

**B Read more about Mother Teresa.**

Mother Teresa was moved by the sight of the sick and dying on the streets of Kolkata. She founded a home for the dying destitute and named it 'Nirmal Hriday', meaning 'Pure Heart'. She and her fellow nuns brought the dying people off the streets of Kolkata to this home. They were lovingly looked after and cared for. Since then many men, women and children have been taken from the streets and carried to Nirmol Hriday. These unloved and uncared for people get an opportunity to die in an environment of kindness and love. In their last hours they get human and divine love, and can feel they are also children of God. The Missionaries of Charity try to find jobs for those who survive, or send them to homes where they can live happily for some more years in a caring environment. Regarding commitment to family, Mother Teresa said, "May be in our own family, we have somebody, who is feeling lonely, who is feeling sick, who is feeling worried. Are we there? Are we willing to give until it hurts in order to be with our families, or do we put our interest first? We must remember that love begins at home and we must also remember that future of humanity passes through the family".

Mother Teresa's work has been recognised throughout the world and she received a number of awards. These include the Pope John XXIII Peace Prize (1971), the Nehru Prize for Promotion of International Peace & Understanding (1972), the Balzan Prize (1978), the Nobel Peace Prize (1979) and the Bharat Ratna (1980).

Mother Teresa died at the age of 87, on 5 September 1997. The world salutes her for her love and compassion for humanity. She has taught us how to extend our hand towards those who need our love and support irrespective of creed, caste and religion. The picture of Mother Teresa, draped in a white and blue-bordered sari, with a wrinkled face, ever soft eyes and a saintly smile, lives on in our mind.

**C Now say whether the following statements are true or false. If false, give the correct information.**

- 1 Mother Teresa was moved to see the diseases that spread in the streets of Kolkata.
- 2 She opened a home for the orphans.
- 3 She and her group brought in the dying people from the streets of Kolkata.

- 4 'Nirmal Hriday' was founded so that the poor people who are dying can get love and care before death.
- 5 Mother Teresa said that humanity passes through charitable organizations.
- 6 We have learnt from Mother Teresa how to come forward to help only those who belong to a special caste.

**B Read about Steve Jobs.**

Steven Paul Jobs ( 24 February 1955 - 5 October 2011) , most popularly known as Steve Jobs was the co-founder, chairman and chief executive officer of Apple Inc. He was the pioneer of the personal computer revolution. He was famous for his career in the electronic field of computers and consumers. This became possible through the marketing of Apple computers.

In 1985, Jobs left Apple after losing a power battle with the board of directors. He then founded NeXT, a computer platform development company specializing in the higher education and business market. Apple, however failed to bring up any new operating system during Job's absence. Jobs returned to Apple as an adviser, and took control of the company as an interim CEO. By 1998, Jobs brought Apple back to profitability from the verge of bankruptcy. He supervised the development of iMac, iTunes, iPod, iPhone and iPad. These devices are so simple and user friendly that even a child can operate them.

He supervised the company's Apple Stores, iTunes Stores and the App Stores too. The success of these products and services brought about steady financial returns for several years and pushed Apple to become the world's most valuable publicly traded company in 2011. This triumph is regarded as the greatest turnarounds in the business history.

Steve Jobs has been highly acclaimed as a visionary leader. He has changed people's perspective towards the computer and how they use it, consume personal media and how they communicate with each other. Hence iBooks, iPhones, iPods and iPads have become extremely popular. Jobs saw and felt the need of Wi-Fi (wireless Internet connection) in laptops. It is he who made Wi-Fi a standard feature of every laptop, and of many other devices worldwide. So Jobs' dream to be anywhere anytime became a reality.

Jobs also co-founded and served as chief executive of Pixar Animation Studios. He became a member of the board of directors of The Walt Disney Company in 2006, when Disney acquired Pixar.

**C True or false? If false, give the correct information.**

- 1 Jobs spent his entire career working for Apple.
- 2 He became famous because he knew how to market computers and keep the buyers happy.
- 3 He became the chairman of The Walt Disney Company.
- 4 Jobs left Apple in 2001.
- 5 Jobs was a visionary.

**E Pairwork: Write a dialogue about the contribution of Steve Jobs on ICT and do a role play.****Lesson 8: Jobs' childhood****A Read the text and write answers to the questions that follow.**

A car mechanic Paul Jobs and his wife Clara Jobs adopted Steve who was abandoned at birth. Paul and Clara loved Steve very much. They made him feel that he was 'chosen' and very 'special'.

One of his colleagues, Del Yocam said about Steve, "I think his desire for complete control of whatever he makes derives directly from his personality and from the fact that he was abandoned at birth."

Jobs' mother taught him how to read and write before he went to the elementary school. So when he went to school, he found out that he knew everything that the teachers were teaching. He got bored and played pranks to keep himself busy. This continued for the first few years. It was clear from his behaviour that he

could not accept other people's authority. He said, "I encountered authority of a different kind that I have never encountered before, and I did not like it."

A turning point came when he was in grade four. His teacher Imogene Hill watched him very closely for some time and soon found out how to handle him and get things done by him. In order to get things done she used to give him money and food. One day after school, she gave Jobs a workbook with math problems in it. She said, "I want you to take it home and do this." She showed Jobs a huge lollipop and said, "When you are done with it, if you get it mostly right, I will give you this and five dollars." Within two days, Jobs solved the math problem and returned the book to his teacher.

This continued for a couple of months and Jobs enjoyed learning so much that he did not need any return. Also he liked his teacher very much and wanted to please her. In Ms. Hill's class, Jobs felt he was special. At the end of the fourth grade, Jobs did very well. It was clear not only to Jobs and his parents but also to the teachers that he was exceptionally intelligent. The school proposed that Jobs should skip two classes and go into the seventh grade. This would mean that Jobs would find the study challenging and he would be motivated to study. His parents had him skip only one grade.

**A Look at the picture. Work in pairs. Talk about the picture and ask and answer the following questions.**

- 1 What is this building?
- 2 Do you have a building like this in your town/village?
- 3 What do we call it?
- 4 What is it used for?

**B Read the text and complete the chart given after it.**

'Heritage' is what we inherit from the past, live with in the present and then pass on to our children or future generation. Our unique source of life and inspiration is our cultural and natural heritage. When we speak of 'World Heritage', it indicates places and sites that we inherited from the past and pass on to the future generation of the entire world.

The 'Shat Gambuj Mosque' in Bagerhat is such a heritage. It became a UNESCO World Heritage Site in 1985.

Originally, the historic Mosque City was known as 'Khalifatabad'. It is situated at the outskirts of Bagerhat town--- not very far from the dense mangrove forest of the Sundarbans. Khalifatabad was a Muslim colony. It was founded by the Turkish general, a saint warrior Ulugh Khan Jahan in the 15<sup>th</sup> century. The infrastructure of the city reveals significant technical skills in many mosques as well as early Islamic monuments. Baked bricks were used for the construction of the buildings. The planning of the city was dominated by the tradition of Islamic architecture and the decorations were a combination of Mughal and Turkish architecture.

Khan Jahan built a network of roads, bridges, public buildings and reservoirs to make the city habitable. There were about 360 mosques in the city. Among them the most remarkable is the multi-domed Shat Gombuj Mosque. The mosque is unique in the sense that it has 60 pillars that support the roof, with 77 low height domes. The 4 towers at 4 corners have smaller domes at the top as well. The

vast prayer hall has 11 arched doorways on the east and 7 each on the north and south for light and ventilation. It has 7 aisles running along the length of the mosque and 11 deep curves between the slender stone columns. These columns support the curving arches created by the domes. The thickness of the arches is 6 feet and have slightly narrowing hollow and round wall.

The west wall in the interior has 11 'mihrabs' (niche in mosque pointing towards Makkah). These mihrabs are decorated with stonework and terracotta. The floor of the mosque is made of brick.

Besides being used as a prayer hall, Khan Jahan used the mosque as his court too. Today, it is one of the greatest tourist attractions and one of the best architectural beauties of Bangladesh.

## **Lesson 2: The Somapura Mahavihara**

**A Read the text.**

Paharpur is an important archaeological site situated in a village named 'Paharpur' in Naogaon district of northern Bangladesh. Naogaon is mainly plain land but in the middle of it stood a hill covered with jungle. When the jungle was cleared and the hill excavated, there emerged a lofty ruin of an ancient temple. The temple is about 24 meter high from the surrounding level. 'Pahar' means hill. Hence the name Paharpur.

The Paharpur site has been excavated and re-excavated a number of times by archaeologists. Sir Alexander Cunningham, archaeological surveyor of India, visited the place in 1879. He intended to carry out an extensive excavation but was prevented by the land owner. Nevertheless, he was satisfied with whatever excavation he was permitted to carry out. The site was declared to be protected by the Archaeological Survey of India in 1919 under the Ancient Monuments Preservation Act of 1904.

Systematic and regular excavation started jointly by the Archaeological Survey of India, and Varendra Research Society of Rajshahi and Calcutta University in 1923. They excavated the south-west corner of the monastery. Next, in 1925-26, historian and archaeologist RD Banerjee excavated the northern part of the central mound. From 1926-27 onward, excavation was carried out under the supervision of KN Dikshit.

The Department of Archaeology of Bangladesh brought the site under further excavation after independence. The operations took place in two phases. The first phase was initiated in 1981-82 and continued till 1984-1985. The second phase was started in 1988-89 and continued till 1990-91.

Pre-liberation expeditions have revealed the architecture of a vast Buddhist monastery, the Somapura Mahavihara. It is dominated by the central shrine, attracting immediate attention by its lofty height and unusual architectural design.

Somapura Mahavihara was one of the most famous Buddhist institutions for monks of ancient Bengal and Southern Asia. The excavated complex at Paharpur has been identified as Somapura Mahavihara built by the second Pala king Dharmapala (781- 821 AD). Some clay seals from the ruins bear the inscription *Shri-Somapure-Shri-Dharmapaladeva-Mahavihariyarya-bhik-su-sangghasya*.

The Pala rulers were devout Buddhists and they founded a number of monasteries throughout their growing empire. Some of them became great centres of learning and their reputation quickly spread throughout Asia. Somapura Mahavihara's close relationship with the ruling dynasty implied that it shared the political ups and downs of its benefactors.

**D Read the text and answer the following questions.**

The French sculptor Frederic Auguste Bartholdi was assigned to design and complete a sculpture *Liberty Enlightening the World* within 1876, so that it could be a gift for the Americans on the occasion of the hundredth anniversary of the American Declaration of Independence. The statue was a joint venture between the USA and France. The French people would build the statue and assemble it in the States, and the people of the USA were to build the pedestal for the statue.

Raising money for the pedestal was completed in August 1885. The construction of the pedestal was finished in April 1886. In the meantime, France completed the Statue in July 1884. They sent it to New York on board the French war ship 'Isere' in 1885. While transporting the statue, it was split up into 350 pieces and packed in 214 crates.

It took four months to put the Statue together and place it on the pedestal. Thousands of people saw the unveiling ceremony of the Statue of Liberty on 28 October 1886. It was a centennial gift ten years late.

The Freedom that the Statue stands for is not stationary. The broken chain wrapped around her feet, sticking out from the bottom of her robe, symbolizes her free forward movement, enlightening the world with her torch, free from oppression and slavery.

The Statue's original torch was the first part constructed in 1876. It was replaced by a new copper torch covered in 24K gold leaf in 1984. The torch is lighted by flood light at night. The original torch is currently located in the lobby of the monument. Access to the torch has been closed since 1916.

From 28 October 2011, on her 125<sup>th</sup> anniversary, the Statue of Liberty was also named "Liberty Enlightening the World Wide Web". The credit goes to a series of new web cams placed around her torch. Several amazing views will be just a click of a mouse away. On clear days, three cameras provide unobstructed views of scenes far and near. Two cameras provide an ultra wide-angle interactive view of the famous golden torch. The remaining camera looks downwards towards the crown of The Statue of Liberty, her face and the tablet she is holding. So a person can have access to the web cam's live feed of The Statue of Liberty from anywhere in the world.

### Questions:

- 5 What do you understand by the expression 'enlightening the world'?

## Lesson 4: Lake Baikal

**A** Look at the picture and talk about it.

**B** Work in pairs and ask and answer the following questions.

- 1 What do you think it is?
- 2 Where is this situated?
- 3 Are you familiar with something like this?

**C** Read the text to find out if your guess about questions 1 and 2 is right.

Lake Baikal is the deepest and one of the biggest and most ancient lakes of the world. It is situated almost in the centre of Asia. Lake Baikal is a gigantic bowl set at 445 meters above sea level. This grand, enormous, unusual and charming miracle of nature is located in the south of Eastern Siberia, in the Buryat Autonomous Republic and region of Irkutsk, Russia.

The lake covers 31,500 sq km. It is 636 km long and an average of 48 km wide. The widest point of the lake is 79.4 km. The water basin occupies 557,000 sq km. and contains 23,000 cu km (cubic kilometer) of water, which is about one fifth of the world's reserves of fresh surface water.

The average water level in the lake is never higher than 456m. The average depth of Lake Baikal is 730 m, and its maximum depth in the middle is 1,620 m. It would take about one year for all the rivers of the world to fill Baikal's basin, and would take four hundred years for all the rivers, streams and brooks now flowing into Siberian lakesea to do the same.

There are hot springs in the surrounding area of Lake Baikal. The quality of the water of these springs is excellent. The lake acts as a powerful generator and bio filter producing this water. Baikal is a stormy lake. Autumn is the most stormy time. The wind blows in various directions.

The weather depends on the wind. If it is blowing from the north, the weather is bright and sunny. The water of the lake looks green and dark blue. But if the winds get stronger, Baikal turns black, waves rising high with white crest. The beauty of Lake Baikal is exceptional.

**D Match the words with the meanings.**

Words	Meanings
miracle	small stream
basin	top
brook	outstanding
crest	an act believed to be caused by God
exceptional	bowl-shaped depression filled with water

**E Read the text in C again and complete the chart.**

Lake Baikal	Information

**F Make a list of attractive features of Lake Baikal.****G Have you seen a lake or river that has attracted you very much? If yes, write what aspects of the lake or river appealed to you. If not, go and see a lake or a river. Then write about it.**

## Unit Nine

# Unconventional jobs

### Learning outcomes

After we have studied this unit, we will be able to

- describe familiar objects
- read intensively and extensively
- participate in debate, discussion
- Write about jobs and situations
- read for skimming, scanning, and inferring

[ Skimming = to read quickly to get the gist of a text

Scanning = to read quickly to get specific information

Inferring = to read text to be able to make logical conclusions. ]

## Lesson 1: Jobs that people do

**A** Many of us think that we must have a steady big job to be happy in life. Is that always true? Look at the picture and discuss in pairs what you see in it.

**B** Read the text. It is about a young entrepreneur, Sayeed Kamal. Notice what he thinks about job and happiness. Then answer the questions that follow.

I know you will wonder if I say the best thing that ever happened to me was when I left my last job. Yes, really!

I was a desk clerk in an office. But believe me I never liked my job. Nothing can be more boring than being stuck in an office all day with computers and telephone.

So after two years or so, I decided to leave my job though I had a good salary. Now I'm the owner of a nursery. Planting seeds, budding, grafting, taking care of saplings, cleaning the flower beds and spending time with trees are different parts of my full time job. I start work very early. In summer I usually leave home at 5:30 in the morning, but in winter not until about 7. I've a small hut in my nursery. There cannot be any more pleasure for me than when I see the moon from there or walk through the trees in the soft moonlit night. The winter is just over. So I'm cleaning up the winter flower garden. Now I'm busy producing more timber and medicinal plants which people will buy from July. Every season is so different and I love them all. When I compare my present days with the past, I simply can't understand how I could survive in my previous job. I love nature. I just love working outside in the open air after all those months in a stuffy office. Gadgets never attract me and perhaps never will.

I'm not married. I do my own work, even cook my own food. I try not to depend on others for the work which I myself can do. Often my friends are annoyed with me. They say, I should engage a maid for household chores. They are not happy to see me in this 'rustic life'. They are professionals. They earn a lot. Maybe

much more than what I do, but I think I enjoy my work more.

At weekends, I often go to the countryside. Sometimes with my friends, sometimes alone. I love collecting unknown saplings. I have another hobby. I love collecting stamps. I have a Russian stamp from the period of Lenin. I don't watch TV. Almost everyone has a TV set these days. But I don't have any. How is that?.

The only problem I face is I do not earn enough money in all seasons. The winter and the monsoon are two busy seasons for me. But it's OK. Maybe I do not earn enough like many other people around me. But I at least earn enough for my family, employees, and myself to run a decent life. I must say I'm a very happy man!

### Questions :

- 1 What is the best thing that ever happened to this man?
- 2 Why didn't Kamal like his last job?
- 3 What are the advantages and disadvantages of his present job?
- 4 When does he earn most money?
- 5 What attitude of Kamal is reflected in the lines : 'Maybe I do not earn enough like many other people around me. But I at least earn enough for my family, employees, and me to run a decent life'?

### C Ask and answer questions about Kamal. Use the clues given.

Example:

..... married?

Q: Is he married?

A: No, he isn't. He isn't married.

- 1 ..... happy?
- 2 When..... leave home in summer?
- 3 What ..... plant after winter?
- 4 What ..... do at the weekend?
- 5 What ..... collect?

- D** Look at the following table. The left column shows some positive aspects of Sayeed Kamal's character. Add some more to the list. Also find out some aspects of Sayeed that you think are unacceptable and write them in the right column.

Good aspects of Sayeed	Unacceptable aspects of Sayeed
a. simple	a. old fashioned
b. diligent	b. loner
c. loves nature	c.
d. caring	d.
e.	
f.	
g.	

- E** Write a paragraph on Sayeed Kamal. Take your cues from D.
- F** 'I must say I'm a very happy man!'--- Do you agree with Sayeed? Write why/why not?

## Lesson 2: Weird jobs around

- A** Look at the following pictures and discuss with your partner what you see in them.

- B** Read the text and answer the following questions.

What type of job do you want to have? Is it a highly paid and high-profile conventional job most people like? Yes, you can have it. It is matter of your choice and an important decision that would help you advance in your life. But have you ever thought of other types of jobs out there— cool, fun, exciting, even strange or weird jobs you never knew existed? What are they? Did you ever wonder who picks up the chewing gum left on a park bench or who assesses whether a piece of furniture is comfortable enough or who constructs glass eye-balls or who farms oysters in the middle of the ocean? These are all odd, unexpected, wild, unconventional, strange or just plain weird jobs and careers. They are not your traditional career choices, but somebody out there does all these things, gets paid for it, and enjoys life like anybody else.

There are hundreds of such jobs to take if you want to travel the less taken ways of life. You have to decide on several questions:

- What companies will recruit/hire me?
- Do I actually get a paycheck?
- What type of education/diploma will I need?
- Can I make a living doing this?

Your answers to these questions will help draw your career roadmap and help you decide if you are ready to take the challenge. Decide if you want a change. A lot of strange jobs also allow you to work part-time or freelance when it fits your schedule. This way you can get a taste of freedom, a secondary income, and build experience at the same time.

Do you have interests beyond writing memos and attending boring meetings? If so, you may wonder how you can find a strange job. Hobbies are a good place to start. What do you do for fun? Do you stuff animals, act like Charlie Chaplin, or make model cars? There are people out there working in fields, making money off their hobbies. Maybe they are testing mountaineering equipment, developing fragrances, trying new brands of undergarments, or saving sea turtles. And they are getting paid good wages too.

## Questions

- 1 'But have you ever thought of *other types of jobs* out there----?' What does 'other types of jobs' mean here?
- 2 There are four particular strange and weird jobs mentioned in para one of the text. Which one of them seems to be most weird to you and why?
- 3 Before going for an unconventional and strange job the author has suggested several questions to decide on. Rearrange them, beginning from what you think is the most important to the least. Add some more questions to the list that might be important to consider.
- 4 What are some other strange part-time jobs mentioned in the text?
- 5 What type of job is referred to by the expression 'writing memos and attending boring meetings'? Do you think the author's observation on the particular job is justified? Why/Why not?

**C Look at the following dialogue and act it out in pairs.**

- X : Have you heard of a job like *picking up the chewing gums left on a park bench*?
- Y : Yes, I have. I know one person who does that job.
- X : What do you think of the job?
- Y : Sounds rather funny/odd/crazy/ though. But what's wrong? You can go for it as long as you enjoy it. And if it pays, I think it's fine.

**Now make dialogues on the following:**

- 1 Assessing the comfort of a piece of furniture
- 2 Farming oysters in the middle of the ocean

**D Arrange a debate in the class in favour of and against strange jobs.****E Work in pairs. Make a list of adjectives used in the text to describe strange jobs (at least 10). Are you familiar with all of them? If yes, use them in your own written sentences. Compare with your partner's.**

If no, try to guess their meaning from the context. Then look up a dictionary to get the meanings. Finally use them in your own sentences.

**F A number of strange jobs have been mentioned in the text. Do you know any one around you who does one of the jobs? If yes, write a paragraph on him/her.**

If no, first select a job. Then try to imagine who around you could successfully do that particular job. Write why you think so.

## Lesson 3: Floral career

**A** Look at the pictures and say what you see in them.

**B** Work in pairs. Choose a job from the box below but don't tell your partner. Ask and answer the following Yes/No questions to find out what the job is.

Architect, taxi driver, dentist, farmer, lawyer, photographer, accountant, mechanic, soldier, hairdresser, chef, politician, nurse, plumber, florist

Use these questions to help you.

Do you...?	Do you have to...?	Did you have to...?
work inside	wear a uniform	study at college
earn a lot	work in shifts	do a lot of training
work with people	use your hands	do internship
use a computer	get up early	
	speak English	

**C** Read the text and answer the following questions.

Have you ever thought of a very creative career? Have you dreamt of a rosy environment full of colour and fragrance? How much would you love it if you were placed in a store full of flowers the whole day? I'm just going to give you some clues about such a job which can also be a business.

Yes. Daisies, violets, tulips, marigolds, dahlias, lilies, jasmines, roses and all those things of beauty can also earn you a living if you handle them professionally. If you start such a profession you will be called a florist. A florist's career is a good choice as an unconventional job for many around the world. Wherever you see eye-catching floral displays, you actually see the professional performance of a floral designer. Using both real and artificial flowers with other greeneries, florists prepare flower displays for a variety of events such as weddings, birthdays, anniversaries, Valentine's day, official receptions and even funerals. Every flower comes with its distinct colour, design, value and meaning which flower designers have to know well. There are conventions and meanings associated with flowers. We know that conventionally roses are meant for romance and marriage anniversaries and tulips for birthdays.

Although formal education or a diploma is not always essential for florists, they must have good taste, a good eye for colours, shapes and proportion. They have to have good sense for selecting flowers, ribbons and other accessories to make beautiful arrangements. Professional florists are knowledgeable about not only flowers but also designs and techniques. Most florists learn the trade mainly through apprenticeship in a flower farming job and also by attending formal floral schools and courses. However, a true passion for flowers and a bit of aesthetic sense are all that can make a florist's career successful.

Flower designers earn fairly handsome money. But the bonus is that they work in a fresh and beautiful environment which their clients also enjoy. They work with flowers all day long in a pleasant and fragrant atmosphere with vivid colours around. But there is a disadvantage too, if you are inclined to see so: florists deal with flowers, but miss their honey!

### Questions

- 1 How is the career of a florist?
- 2 What qualities do you need to have for a florist's job?
- 3 How do most florists learn the trade?
- 4 What is the extra advantage of a florist's job?

**D** Suppose you have met a florist in a flower shop. Write an imaginary interview with him/her.

**E** Write a short paragraph giving reasons why you like or don't like the job of a florist.

## Unit Ten

# Dreams

After we have studied the unit, we will be able to

- listen for specific information
- participate in conversations and discussions
- understand and narrate problems
- take and give interviews
- complete a grid.

## Lesson 1: I have a dream

### A Read these texts and say what is common among them.

Hi, I'm Moitry Mutsuddi. My father is a freedom fighter and my mother is a teacher. They both dream for a golden Bangladesh and inspire me to do something significant, something positive for the country. Often I think what to do to fulfil their expectations in future. Finally I've decided to be a politician and work for my motherland. How is it?

Hello! I'm Mofakkhar Hasan. I live in a slum with my parents and sisters. I know how cruel poverty can be! My heart bleeds to see the poor, suffering people in my slum. After I have finished my education, I'll be a social worker and fight against social injustice and poverty. 'Change' is the word I believe in to make Bangladesh a golden Bengal.

I'm Amitabho Kar. When I say to my friends that I would like to be a space traveller, they laugh. But I really want to be that. If people from other countries can conquer the moon, and roam in the space, why not we? To be honest, I visualise that one day I'm stepping on Mars from a space shuttle. Please wish me the best so that my dream comes true.

My name is Ruth Antara Chowdhury. I believe that a society cannot be enlightened without proper education. Education lights the candle in people's heart. So I will be a teacher. Most of the times, people laugh at me and say, 'You are a brilliant student. Why not be a doctor or an engineer?' I tell them, 'I want to be a teacher because I'm brilliant!'

- B** Read the texts again and then work in pairs. Which person do you think is most like you and why? Write a similar text stating your own dream.
- C** Read this interview between Swati, a successful student in JSC and a newspaper reporter, Animesh Roy. The interview is jumbled up. Read the text and then organize the conversation properly.

Animesh : So you mean learning from each other?

Swati : There is no magic behind my success. I just worked hard. I followed our teachers' advice, 'The more you read, the more you learn'. I'm grateful to my teachers and parents for guiding me properly.

Animesh : Well Swati, we are really so proud of you for your brilliant performance in the JSC exams. Please tell us how you could achieve this success.

Swati : Ohh....and I'm grateful to my school and friends too.

Animesh : That's great!

Swati : In my school, we had a nice study group. Whenever we had any problem, we discussed it in our group first. We tried to help each other. And it always worked. Never forget, two heads are better than one.

Animesh : I understand why you are grateful to your school but would you explain how you are grateful to your friends, please?

Swati : Exactly that!

Animesh : By the way, Swati, what are your dreams for the future?

Swati : To keep up the success in next exams and make my dreams come true. I want to be a scientist. Since my childhood I've known that many people in Bangladesh are under arsenic threat. They are taking arsenic directly from their drinking water and indirectly from the crops and vegetables they eat. It's a kind of slow poisoning. People are helpless. They are suffering from many kinds of diseases. Therefore, I have a dream to carry out a research on how to get rid of this problem, using our own recourses and expertise.

Animesh : Wish you luck.

**D Now listen to the Audio and check whether your answer is correct.**

**Listening text 8**

**E Work in pairs. Make questions for your partner to know about his/her dreams and take his/her interview.**

## Lesson 2: What I dream to be

**A Work in groups. Read the following words. How are they related to dreams?**

imagination, emotion, passion, obsessions, strong desire, colour, rosy, future, mind, brain, plan

**B Work in groups, and discuss the following questions:**

- 1 Do you consider dreams important for life? Why/ Why not?
- 2 What do you dream at this moment as a student?
- 3 What, according to you is the dream of Bangladesh at present?
- 4 Give examples of some dreams that are commonly shared by Bangladesh as a nation.
- 5 Do you think the world has any common dream? What is that?

**C Listen to the Audio. Three persons are telling about their dreams. Take notes in the following grid to show what they plan to do and what they don't want to do.**

### Listening text 9

	plans to	doesn't want to
1. Catherine Aich		
2. Masum Billah		
3. Nirmal Drong		

**D Listen to the texts again and check (✓/X) the statements.**

- 1 Masum Billah desires to study agriculture as his teacher suggests him to do that.
- 2 If Masum qualifies, he will get admitted to a university in his rural area.

- 3 Catherine's mother died in a doctor's hand.
- 4 If Catherine's family had brought a trained nurse, her mother might have survived.
- 5 If Najmun Sultana came a few months ago, Nirmal could take admission to a foreign University.
- 6 If Nirmal's dreams come true, his near and dear ones will be more conscious about their rights.

**E Now make sentences from the following substitution table.**

If Masum	becomes a nurse	he will be a leader in the field
If Catherine	deserves any merit	of education.
If Nirmal	has opportunities	she will serve her community.
If Najmun	called a trained medical person	she could save her mother's life.
Sultana	came to Nirmal's class a few days ago	he will be a farmer's friend.
		they could learn more.

**F Work in pairs and make sentences reflecting your own life using *if clauses* as in the table above.**

**G Write a composition about some event in your life that has inspired you to have a dream. Then briefly describe the dream. Make predictions and possibilities.**

### **Lesson 3: They had dreams 1**

**A Shanta was chatting with one of her foreign friends Jenny. Read the dialogue and tell what the subject of their conversation is.**

Jenny : Shanta, what's your dream for the future?

Shanta : To be a good human being first and then work for my country—no matter whether I become a social worker, an artist, or a professional.

Jenny : Wow! I really appreciate your thought! By the way, Shanta, does anyone inspire you in your dreams?

Shanta : Certainly. I'm always influenced by the great personalities in our country and abroad. Whenever I read the biography of great people, I try to understand how their dreams could help them to be what they have been.

**Jenny** : Would you please tell me about some of your favourite dreamers?

**Shanta** : Sure! Read the following texts to know about some dreamers in my country. They are my icons as well.

**B Read the text.**

Pritilata Waddedar was born in Chittagong on 5 May 1911. She was a meritorious student at Dr Khastagir Government Girls' School in Chittagong and Eden College, Dhaka. She graduated in philosophy with distinction from Bethune College in Kolkata. In her college days, Pritilata was an activist in the anti-British movement. All through her life, she dreamt of two things: a society without gender discrimination, and her motherland free from British colonial rule.

So she decided to fight against the British rule. Soon after, Pritilata became the head teacher of Nandankanon Aparna Charan School in Chittagong. Gradually she involved herself in Surja Sen's armed resistance movement. Surja Sen was a famous anti-British movement organizer and revolutionary activist in Chittagong area at that time. In 1932, Surja Sen planned an attack on the Pahartali European Club. The club was well-known for its notorious sign at its entrance: *Dogs and Indians not allowed*. Surja Sen assigned Pritilata to lead a team of 10-12 men to attack the Club. The raid was successful but Pritilata, dressed as a man, failed

to get out of the Club. She committed suicide by taking potassium cyanide to avoid arrest. She proved that women can work like men. She also proved that women too needed to be prepared to sacrifice their lives for freedom from the British colonial rule. Her dream finally came true. The British rule came to an end in 1947 though she couldn't see it during her lifetime.

Pahartali European Club

**C Read the words in Column A and match them with the meanings in Column B.**

Column A	Column B
graduated	a member of a certain social or political group
activist	fight
movement	took a university degree
gender discrimination	rule by a powerful country over a weaker country
colonial rule	battle
combat	inequality between male and female
gradually	slowly
resistance	give responsibilities
notorious	activities
assign	dishonourable

**D Now answer the questions.**

- 1 Where did Pritilata fight?
- 2 When did she fight?
- 3 Why did she fight?
- 4 What was Pritilata's profession?
- 5 What do you learn from Pritilata's life?

**E Now make questions from the substitution table and match the answers. One is done for you.**

When		she graduate in?	On 5 May 1911.
Where		Pritilata born?	In Chittagong.
What	was	assigned Pritilata to attack	Philosophy.
Why	did	the Club?	To fight against the British rule.
What		Pritilata die?	For its notorious sign— <i>Dogs and</i>
Who		the Pahartali European Club	<i>Indians not allowed.</i>
How		famous for?	Surja Sen.
		she born?	She committed suicide by taking potassium cyanide.

## Lesson 4: They had dreams 2

**A** Look at the picture. He is a great son of our country. Who is he? What do you know about him?

**B** Read the text.

Zahir Raihan was one of the most talented film makers in Bangladesh. He was born on 19 August 1935 in the village Majupur in Feni district. He was an active worker of the Language Movement. He was one of the ten students to go out in a procession on 21 February 1952 despite a ban on such activities imposed by the authorities. As a result, he and many others were arrested and taken to prison. Raihan was also present at the historical meeting of Amtala on 21 February 1952. He also took part in the mass movement in 1969. In 1971, he joined the Liberation War.

All through his life, Zahir Raihan dreamt of a democratic society, a society that would ensure freedom of speech. He had many dreams about our film industry too. He made a legendary film *Jibon Theke Neya* based on the Language Movement of 1952. It was a protest against the autocratic government then ruling our country. The family portrayed in that film symbolically represented East Pakistan. The family was ruled by an autocrat who had to go to prison for her conspiracy. During the Liberation War in 1971, this film was shown outside Bangladesh. Celebrated film makers like Satyajit Ray, Mrinal Sen, and Ritwik Ghatak appreciated the film. Raihan gave all the money the film made to the Freedom Fighters' trust. Besides, his great documentary on Pakistani atrocities, *Stop Genocide*, helped create world sentiment in favour of our liberation war.

On 30 December 1971, someone informed Raihan about an address somewhere at Mirpur where he might find his brother, the famous writer Shahidullah Kaiser, who had gone missing from 14 December 1971. Kaiser was captured and killed by the Pakistani army and the local collaborators during the last days of the war. Accordingly, Raihan left home to get his brother back but he never returned.

Zahir Raihan's dream was fulfilled. He could see the emergence of an independent Bangladesh though he did not get back his brother. And it's a pity that this dreamer could not live to see his dream come true.

**C Use appropriate information from the text above to complete the grid.**

<b>Zahir Raihan</b>					
participated in	famous as	best document ary	movie based on language movement	missing since	his dream

**D Read the following sentences and complete them.**

- 1 Zahir Raihan is famous as .....
- 2 Raihan was imprisoned because .....
- 3 He participated in ..... and .....
- 4 *Jibon Theke Neya* symbolizes.....
- 5 He donated .....
- 6 He worked to organize ..... by his great documentary *Stop Genocide*.
- 7 His disappearance is a great.....

**E Work in pairs. Discuss.**

- 1 Why is Zahir Raihan considered a freedom fighter though he was a film maker?
- 2 How does the title of the lesson fit the story of Zahir Raihan?

**F Project. Work in groups. Meet a freedom fighter in your locality. Interview him/her. Then write a paragraph on him/her.**

head light, gas light, hurricane lamp, electric bulb, tube light, stage light, candle light, table lamp, charger light, search light, energy saver bulb, oil lamp

**B Read the text and answer the following questions.**

Sohan lives in a village in the south-west part of Bangladesh. Last night he could not sleep. His sister had her SSC exam next morning. She could not read either. There was load-shedding. The summer night being muggy and hot, life became hell without electricity. Most of their area remained dark for hours due to power shortage

In May-June, temperature shoots up to 40 degree Celsius. With almost 90 percent of humidity in the atmosphere, it becomes all wet, damp and sticky. When you are busy fanning yourself all the time, how can you concentrate on studies? In the night it is impossible to sit down to study with a candle light or table lamp or hurricane lamp or a rural kerosene lamp. People simply come out of houses almost bare-bodied and sit in the open places. Some splash cold water on their faces. Fans remain unmoving, electric bulbs are off and it is dark everywhere. It is simply unbearable.

What is the reason of frequent load-shedding? Press reports say there is a shortage in electricity production. According to the Power development authorities, the demand for electricity a few years ago was more than 6,000 MW\* a day while the supply remained around 4,200 MW. In the rural areas, the Rural Electrification Board (REB) could supply barely half of the total demand which was around 2,400 MW per day. In the capital city, the demand stood at around 1,400 MW while the supply amounted to 650 MW. As a result, load-shedding is unavoidable for the time being. But situation is improving very fast.

\*MW is Megawatt which is a unit of power used to measure the output of a power station.

**Questions**

- 1 What happened to Sohan last night?
- 2 How was the summer night?
- 3 How is a summer day?
- 4 What happens during load-shedding in Sohan's area?
- 5 What do people use at night during load-shedding?

- C Complete columns B and C in the following table with the information from the above text in section B. Then calculate the shortage of electricity supply and write the results in column D.**

<b>A Electricity</b>	<b>B Demand</b>	<b>C Supply</b>	<b>D Deficit</b>
Nationwide			
Rural area			
Capital city			

- D Complete the dialogue. Base the dialogue on the nationwide demand, supply and deficit of electricity shown in the table in section C.**

X : What's the nationwide demand of electricity?

Y : It's ..... Megawatt per day.

X : How much can the Power Authority supply?

Y : They can supply only ..... Megawatt per day.

X : What's the deficit/How much is the deficit?

Y : Well, it's ..... Megawatt per day.

**Now complete the following dialogues using the other information in the table.**

- I X : What's the rural area's demand of electricity?**

Y : It's .....

X : How much can the REB .....

Y : They .....

X : .....

Y : Well, .....

- II X : What's the capital city's .....**

Y : It's .....

X : .....?

Y : They .....

X : .....?

Y : Well, .....

- E Do you think load-shedding causes the same kind of problems to people both in and outside the city? Discuss with your partner and make two different lists of problems caused by the long-time load-shedding, one in the city, and the other outside the city.**

List of problems caused by load-shedding	
In the city	Outside the city

- F Write a letter to an editor of a national daily about the sufferings of the people caused by load-shedding in your locality.**

## Lesson 2: Renewable energy sources -2

- A Pairwork. Read the words in the box. Which of the words are related to energy?**

1. fuel	2. desert	3. fossil	4. sun
oil	forest	relic	wind
gas	valley	remnant	water
soil	waterfall	sign	coal

**Now underline the odd word in each column that doesn't belong to the group. Then compare with your partner. Check the meanings of the new words in a dictionary.**

**B Read the text and answer the following questions.**

In a speech at the 90<sup>th</sup> Science Congress, internationally acknowledged scientist and former Indian president Mr APJ Abdul Kalam mentioned a very important aspect of mankind's future energy crisis. He pointed out that the era of wood and biomass has almost come to an end. The age of oil and natural gas

would soon be over within the next few decades. Massive burning of world's coal reserves may lead to a worldwide ecological disaster because coal burning emits the highest amount of carbon in the atmosphere. Ukraine's (former Soviet Union) Chernobyl disaster in 1986 has exposed that nuclear energy can be potentially dangerous too. So according to Kalam, the only solution that mankind can look to is the massive use of solar energy in future because it has some advantages over other forms of renewable energies.

Now, why has Kalam put so much importance to the issue of energy? The energy sources have always been a major factor of change throughout history. The world's petroleum consumption has increased from 3 billion barrels annually in 1930 to 50 billion barrels annually today. In the next quarter century, the world's population is expected to be about 8 billion which is 30 percent higher than today. Developing countries will grow their economies about two times faster than industrialised countries. Global economic growth is expected to continue at 3 percent per year. Consequently, the global demand for energy will grow at about 1.7 percent per year on an average. It indicates a 50-percent rise of energy consumption by 2030. If the world's daily petroleum consumption is 220 million barrels now, it will rise to 335 million barrels by that time. The present reserve of hydro-carbon energy resources is limited and it will not be sufficient to meet the future energy challenges of the world. And hence, leading industrial countries have taken initiatives to tap alternative energy sources mainly known as green or renewable energy sources. The bottom line of Kalam's speech indicates the concern of mankind in the 21<sup>st</sup> century.

To answer the energy..... in the world, scientist, professor, and former Indian president Mr APJ Abdul Kalam has ..... that solar energy can be harnessed by establishing space stations in outer space in order to..... solar power round the clock.

Mr Kalam said that the sun ..... about 10 trillion times the energy which humans consume across the world today.

If we ..... able to extract even a small portion of this energy from the sun, it ..... be sufficient to secure the energy demands of our future.

Pointing out that space based solar power plants do not get ..... by weather, the scientist said that it would thus be far more ..... in efficiency and power generation than the surface based systems.

Professor Kalam suggested that the energy should be transmitted from space back to earth ..... through microwave or any other technology like laser. Careful research of the impact and safety concerns would have to be ..... in this regard.

**E 'Massive burning of world's coal reserves may lead to a worldwide ecological disaster ...'--- Do you support this view? Explain why/why not .**

**F In Sohan's village, some people headed by Mr Asadul Islam came from an organisation to hold a meeting at the local Union Parishad (UP) Office. Their objective was to introduce alternative power supply systems in rural households. Read the dialogue between the UP Chairman and Mr Islam.**

Chairman : What's your alternative power supply system?

Mr Islam : Well, it's solar power and we are going to use solar power units in rural areas.

Chairman : What is it? Is it something new?

Mr Islam : Not exactly. It's already familiar in many parts of the world. We've introduced it in our country too. But yes, in this locality it's something new.

Chairman : I see. Why do you call it 'alternative power supply system'?

Mr Islam : Because solar power is a substitute for conventional electricity. It's actually a renewable energy source. Our solar units can be installed on open roof tops or at any open place where sunlight is available.

Chairman : Sounds good. How much electricity can they give? Can they run my irrigation pump?

Mr Islam : I'm afraid Mr Chairman, they can't. Our solar panels are small and are designed for domestic purposes only. They can produce enough electricity to run say, two or three tube lights, two fans, a TV set and the like. But larger units can run...

Chairman : Sorry to interrupt Mr Asad. I've to go to the bus stand now to receive a sick friend. Anyway, several villages in our Union are still without electricity. I hope people will welcome your 'alternative power supply system'.

Mr Islam : Thank you, Mr Chairman. Goodbye.

Chairman : Goodbye, Mr Islam. See you again.

**G True or false? If false, write the correct answer.**

- 1 Alternative power supply system is a completely new system in our country.
- 2 A renewable energy source can be a substitute for conventional electricity.
- 3 Solar power units of Mr Islam are for commercial use only.

**H What questions would you like to ask Mr Islam about solar panel, solar unit, energy sources, 'alternative power supply system', its capacity, its advantages and disadvantages, etc? Make a list of your probable questions.**

**I Role play. Work in pairs. You take the role of the Chairman and your partner the role of Mr Islam. Rewrite the dialogue and act it out.**

### Lesson 3: Renewable energy sources-3

**A** Look at the following pictures and discuss with your partner what you see in them. How are the two pictures related to each other?

**B** Read the text and answer the following questions.

Countries of the world rely heavily on petroleum, coal and natural gas for their energy sources. There are two major types of energy sources: renewable and non-renewable. Hydro-carbon or fossil fuels are non-renewable sources of energy. Reliance on them poses real big problems. First, fossil fuels such as oil, coal, gas etc, are finite energy resources and the world eventually will run out of them. Secondly, they will become too expensive in the coming decades and too damaging for the environment. Thirdly, fossil fuels have direct polluting impacts on earth's environment causing global warming. In contrast, renewable energy sources such as, wind and solar energy are constantly and naturally replenished and never run out.

Most renewable energy comes either directly or indirectly from the sun. Sunlight or *solar energy* can be used for heating and lighting homes, for generating electricity and for other commercial and industrial uses.

The sun's heat drives the wind and this *wind energy* can be captured with wind turbines to produce electricity. Then the wind and the sun's heat cause water to evaporate. When the water vapour turns into rain or snow and flows downhill into rivers or streams, its energy can be captured as *hydroelectric energy*.

Along with the rain and snow, sunlight causes plants to grow. Plants produce biomass which again can be turned into fuels such as fire wood, alcohol, etc identified as *bioenergy*.

Scientists have identified *Hydrogen* as another form of renewable energy source. It is the most abundant element in nature. But it does not exist separately as a gas. It is always combined with other elements, such as with oxygen to make water. Hydrogen, separated from another element, can be burned as a fuel to produce electricity.

Our Earth's interior contains molten lava which gives off extreme heat. This heat inside the Earth produces steam and hot water which can be tapped as *geothermal energy* to produce electricity for heating homes, etc.

*Ocean energy* comes from several sources. Ocean's force of tide and wave can be used to produce energy. The surface of the ocean gets more heat from the sun than the ocean depths. This temperature difference can be used as energy source too. (Source: the Internet)

### Questions

- 1 What do you mean by renewable energy sources?
- 2 What are the problems with non-renewable energy sources?
- 3 What are the major differences between renewable and non-renewable energy sources?

**C Which of the renewable energy sources mentioned in the text have you heard of before? One of those resources is used in the Chittagong Hill Tracts (CHT) to produce electricity. Can you say what it is? Browse the net in groups to find out the answers to the following issues and present them to the class.**

- 1 What is the name of the project?
- 2 Where in the CHT is the project located?
- 3 When did it start operation?
- 4 How much electricity is being produced from here for the national grid?
- 5 How many units are working there?
- 6 What is the positive impact of the project on our national development?

**D Read the dialogue between Raju, a student of class ten and his uncle, Mr Barua who works at Sangu Gas Field and answer the following questions.**

- Mr Barua : What are you reading, Raju?
- Raju : English, Uncle. A chapter on renewable energy sources.
- Mr Barua : I see. Do you know renewable energy is also called green energy?
- Raju : Green energy?... No Uncle, I don't know. Nothing is there about green energy in the text either.
- Mr Barua : Are you sure? Anyway, renewable energy sources provide us with energy which doesn't harm environment during its production or consumption. Say, solar energy. You see, there's no burning, no smoke, no emission of gases. It's a sort of clean technology and clean energy source.
- Raju : Oh exactly. That's what our teacher said, I remember.
- Mr Barua : On the other hand, burning fossil fuels, say oil or coal, emits greenhouse gases that harm the environment.
- Raju : O... I see. Yes, I've got the clue, Uncle. Thanks a lot. I now understand the relation between the two pictures in section A. Green energy sources make a green globe. Excellent!

**Questions**

- 1 Why is renewable energy called green energy?
- 2 'Nothing is there about green energy in the text either'. --- Do you think this statement of Raju is correct? Explain why yes/no.
- 3 'I now understand the relation between the two pictures in section A'. What does Raju mean here? What does he really understand? Do you agree with Raju's view here? Why?

**E Read the dialogue and act it out in pairs.**

- A : What's *solar energy*?
- B : It's one of the renewable energy sources.
- A : Why is it called green energy?
- B : Well, it's green energy because it helps us keep the Earth green. I mean it doesn't emit any pollutants in the atmosphere when we produce and use it.

A : I see. Then it must be a clean source of energy.

B : Exactly. And that's why it's also called clean energy.

**Now complete the following dialogue taking cues from the above model.**

A : What's wind energy?

B : It's one of the .....

A : Why's it called .....?

B : Well, it's green energy because ..... the Earth green. I mean it doesn't ..... when we produce and use it.

A : I see. Then it ..... source of energy.

B : Exactly. And that's why ..... clean energy.

**F Now write dialogues on *hydroelectricity, ocean energy, geothermal energy, hydrogen energy*, using the model in E above.**

**G Both South and North Dhaka City Corporation are installing solar panels in place of conventional electricity connections to illuminate roads in many areas. Write a letter to the editor of a daily newspaper appreciating this initiative and saying why this should be followed by other city authorities too.**

## Unit Twelve

# Roots

### Learning outcomes

After we have studied the unit, we will be able to

- participate in conversations and debates
- exchange personal information
- narrate incidents and events in a logical sequence
- present own ideas, give and ask for information
- write letters to newspapers
- lodge complaint
- present information in a chart.

## Lesson 1: My roots

- A** Look at the pictures and the caption below. How do you feel looking at the photo? Why do you think people take such risks to go home to celebrate Eid?

**জীবনবাজি!** | নেজারুল হোসেন বলে, 'যদি কেউ জানে। তবে বীজের মতো কিছু লিখে এসে ঘুরে পড়ে।' অন্য ঠিক থেকে পড়ে লিখে আসলে মনে পড়ে যাক। 'সাক্ষ্য' অর্থে হলো এ 'জীবন' যেতে থাকে। 'যদিও' কল্পনাতে এলাকা থেকে হোলে। — খোজাশের আলম বিজু

- B** Read the following text.

Eid is the main religious festival of the Muslims in Bangladesh. Eid means happiness. Everyone wants to share this happiness with near and dear ones. So most of the people, who are living outside their homes for different reasons have a strong desire to get back home during the Eid vacation. As a result, there is a mad rush to board buses, trains, or launches for going home. This often causes transport accidents that take away many lives. However, these cannot stop people from going home to meet their family, in-laws, or friends. What makes people rush for their homes in spite of serious hazards? This is nothing but people's desire to return to the roots. Do human beings have roots like the trees? The answer is 'yes' but unlike the roots of the trees they are invisible, they lie in our minds. It's these roots that make a bond between us and family

members, in-laws, friends, neighbours or even between us and the land where we were born and grew up. In that sense our families, our land of birth, relatives, our culture, traditions, or surroundings are our roots. And wherever we stay, we feel the power of our roots. It's our roots that develop our identity making us what we are. When we lose that bond, we become rootless. Human beings who do not have any roots are a non-entity. In other words, they do not have an identity. They don't know where they are from, and/or where they are heading to. This often makes them feel empty and lost.

**C Read the text in the speech bubbles. Make questions based on the bubbles and then compare them in pairs.**

Eid is the main religious festival of the Muslims in Bangladesh.

Eid means happiness.

In that sense our families, our land of birth, relatives, our culture, traditions, or surroundings are our roots.

It's our roots that develop our identity making us what we are.

**E Work in pairs. Talk about these questions.**

1. Do you have any root other than the place where you are living now? If yes, where is it and who live there? If not, why not?

2. How do you label your roots?

I have my roots in

☐ a remote rural village   ☐ a village   ☐ a semi-urban area (upazila)  
☐ a small town   ☐ a midsize city   ☐ a suburb   ☐ a city

- 3 Do you feel any attraction for your roots? Any pull in your heart?

- 4 How do you nourish your roots?

- 5 What, according to you, are the reasons why people become rootless?

**F Make a classroom survey and present in a chart the types of roots your classmates have.**

## Lesson 2: My roots -2

**A Read the following remarks and find out who is like you.**

I simply just can't bear the people who don't have any respect for their roots.

– Haridas Soren

We have a moderately big house in a town but we frequently go to our village home as well. I always feel so at home when I visit my village and stay with my near ones.

– Bidisha Yasmin

I live in a small apartment with my mom, dad, and my little sister. Most of my relatives live in a village. I seldom go over there as I don't like village life.

– Ifti Mahmud

Some people are so eager to leave their own homes, friends, and everything behind only to be a part of the city life. They are not for me.

– Antara Gomes

To be frank, I don't get used to visiting my relatives in the village.

– Jhilik Ahsan

I live in a city but I never forget my parents are from a tiny but beautiful village. I know I have my roots there and I'm so proud of that.

– Anupom Chakma

I just can't stand the people who have grown up in the village but forget it once they are out from there.

– Debashish Biswash

**Now make your own statement about your roots.**

- B Read the above statements of different people again and make two lists—one stating what they like and the other stating their dislikes.**
- C Do you agree/disagree with their statements? Write down why.**
- D Read the following text.**

Mainul Islam is a qualified farmer in Naogaon. Mr Islam was very brilliant as a student. He took his higher education from Bangladesh Agricultural University in Mymensingh. He then came back home and started advanced farming. He has two other brothers who are graduates in different disciplines. The specialty of the Islam family is that they all are living in their village and all are renowned in their own fields. Mr. Islam's younger brother, who is a Rajshahi University graduate, is a science teacher in a local school. His youngest brother is a social science graduate who likes to start a local NGO to work for this area. When asked "What makes you decide to stay here in this village?" Mr Islam smiled and said, "Look, it's true that we could leave this village for city life. I could be banker or my brothers could be bureaucrats. But it didn't attract us. We are sons of this soil. Yes, we have education but does education prepare a person only to be an officer? Don't we have any obligation to the soil that has made us what we are?" He also added that not every educated individual should be a job seeker. He added that since his discipline was agriculture, after his education he took the occupation of a farmer. In response to a question whether they had any frustration living in a village, he confirmed that they were indeed very pleased with their life. He said, "I work in my own farm, stay with my family members, pass time with my old friends, and sleep at my own home. All these count a lot."

Mr Islam is right. Many people go to cities and forget or loosen their roots knowingly or unknowingly. Mr Islam and his brothers are great—they haven't forgotten their roots. They not only stuck to their own roots, they have been torch bearers for others to be respectful of their roots.

- E Work in pairs. If you are given a chance to meet Mr Islam, what questions would you ask him? Make both wh-questions and yes/no questions.**

**F Read the statements in columns A and B. Then match them to make complete sentences.**

Column A	Column B
1. Mr Islam	a. if anyone has education she/he must have a job.

### **Lesson 3: The return of the native**

**A Read the following text.**

Michael Madhusudan Dutt, popularly known as Madhusudan, was a celebrated 19<sup>th</sup> century Bengali poet and dramatist. He was born in Sagordari on the bank of the Kopotaksho River, a village in Keshabpur Upazila under Jessore district.

From an early age, Dutt aspired to be an Englishman in form and manner. Though he was born in a sophisticated Hindu family, he converted to Christianity as a young man, much to the ire of his family, and adopted the

first name Michael. In his childhood, he was recognised by his teachers as a precious child with a gift of literary talent. His early exposure to English education and European literature at home and his college inspired him to imitate the English in taste, manners and intellect.

Since his adolescence he started believing that he was born on the wrong side of the planet, and that his society was unable to appreciate his talent. He also believed that the West would be more receptive to his creative genius.

Madhusudan was an ardent follower of the famous English poet Lord Byron. So after adopting Christianity, he went to Europe and started composing poems and plays in English. They showed his higher level of intellectual ability. However, he failed to gain the right appreciation. To his utter frustration he found that he was not esteemed as a native writer of English literature. Out of his frustration, he composed a sonnet in Bangla "Kopotaksha Nad" which earned him huge reputation in Bangla. Gradually he could realise that his true identity lay in Bengal and he was a sojourner in Europe. Afterwards he regretted his fascination for England and the West. He came back to Bengal and devoted himself to Bangla literature from this period. He has written the first Bangla epic *Meghnad Badh Kabya*.

## Lesson 4: In search of identity

**A Do you ever read the Problem Page in magazines or newspapers? What kinds of problems do people often write about?**

**B Here are two letters from the problem page in the *Daily Bangladesh*. Read them and discuss with a partner what you think the content of the letters is. Use a dictionary to check any new words.**

## Avajon's Problem page

### *You aren't alone...*

Dear Avajon

Often I'm so sorry to see the city's footpaths occupied by floating people. They are living in some makeshift shacks. I simply cannot think how father, mother grandfather, grandmother and kids—all live in such a tiny place. Within the few square yards in their possession they sleep, socialise, cook and even beautify themselves. These people are living in such an inhuman condition! This cannot be the picture of life in a civilized society. Also they are polluting the area. They are least bothered about their health and hygiene. Out of curiosity, I talked to some of these people. They have their own homes and identity in their own village. They are here thinking that life in the city will be better. What an irony! Can't the society or the state do anything for these people? However, I must admit that I'm amazed to see how they sometimes tidy up their places especially in the evening! Home, sweet home after all! Mithun

Dear Mithun

I understand your concern. Human flow from the rural areas to the urban areas is a big social problem in many countries like ours. These floating people are definitely a burden to the cities where they migrate. When the number is huge, it is difficult for any state to rehabilitate them quickly. See from the other side. The people you have referred to have lost their roots and they are unable to assimilate in the new culture. Maybe many of them are attracted by the charm of the cities, but I'm sure it was a need to many others. People become rootless sometimes due to climate change, river erosion, social discrepancies, or poverty. However, you cannot solve this problem overnight. But you can certainly take steps to improve their lifestyle. Why don't you form a committee with other young people in your locality that will teach them basic health and hygiene? It may better their life as well as help you minimize pollution. Give it a try.

Yours  
Avajon

**C Look at the texts. Say who/what *they, their, this, that, it* refer to in the following sentences.**

- a They are living in some makeshift shacks.
- b Within few square yards in their possession they sleep, socialise, cook and even beautify themselves.
- c This cannot be the picture of life in a civilized society.
- d Why don't you form a committee with other young people in your locality that will teach them basic health and hygiene?
- e Give it a try.

**D Work in pairs. First write two problem letters. The problems can be personal or of your locality as in B. Read your partner's problem and give suggestions.**

**E Work in groups. Take roles as a TV Anchor, Mojnu Mia, Fazlur Rahman, and Nilima Chowdhury as given in the following text. Put suitable verb form into each gap of the text related to your role. Then act out the talk show.**

TV Anchor : Ok, let us ..... the explanation of these problems from a social scientist, Nilima Chowdhury. Ms Chowdhury, what are your interpretations of these problems?

Nilima Chowdhury: You see, this problem is often ..... diaspora. A diaspora is created through migration, or scattering of people away from an established or ancestral homeland. There might be different reasons for that. It may be due to government action, political decisions or for avoiding conflict and war. Diaspora has some common consequences. Once people are away from their roots, they have a kind of culture shock. They take time to ..... to the new culture. Sometimes they never integrate. This ..... them a feeling of home sickness. In spite of their strong fascination for homeland or hometown diaspora people .....to get back to their roots because of economic and social realities. Sometimes a lack of social acceptance coupled with economic hardship, inadequate education, and loose family ties people ..... involved in crimes. You may ask, “Does it..... that people won’t .....to other cities/countries?”. People will, as it is 21<sup>st</sup> century when the world is a big global village. But we ..... to be aware of the problems created by migration. It’s a reality that people with better ties with their roots suffer less from this problem. So instead of being allured by the ‘better life’ we can ..... to be happy with what we have and gradually try to develop our condition without forgetting our roots.

## Media and modes of e-communication

- surf the Internet
- read and write emails
- narrate incidents in a logical sequence
- understand texts
- read intensively and extensively
- participate in debates.

## Lesson1: Media and modes of e-communication

**A Look at the pictures and say what you see in them.**

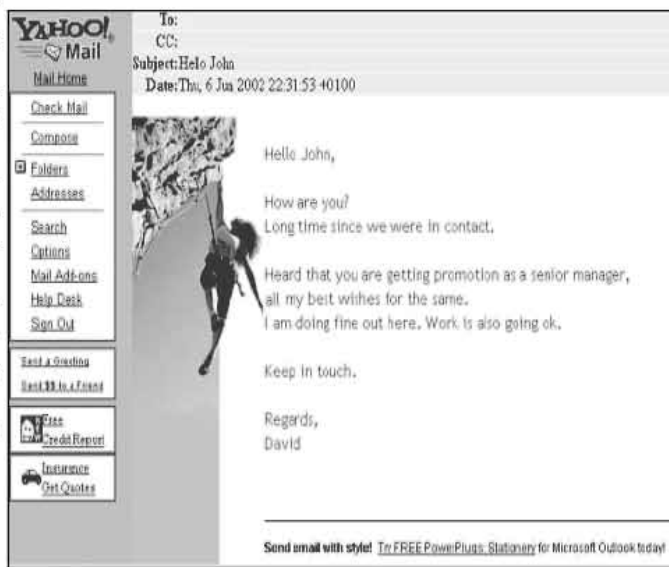

**B Work in pairs. Discuss which of the following words you are familiar with. How are they related to e-communication?**

facebook, e-mail, web site, blog, e-commerce, twitter, e-learning, iPod, tablet pc, information super high way, social network, smart phone

**C Read the text and answer the questions that follow.**

Let's imagine a citizen's ordinary day at work. The morning probably starts with a cup of coffee/tea, followed by greeting the colleagues. Then comes the inevitable, which is logging in the computer. For many of us the third step has become an automatic behavior and it dominates the rest of our work day, receiving and sending dozens of emails.

An e-mail is an electronic mail. It is a computer-aided way of exchanging digital text

messages from a sender to one or multiple recipient/s. E-mails operate through a network of computers linked by the Internet. There are commercial server agencies such as Yahoo, Gmail, Ymail, Hotmail, etc. that accept the text message from the sender, forward it and deliver instantly to the digital mailbox of the recipient. If the recipient is not online, the message is stored and delivered later when the recipient is online. It works instantly just with the click of your mouse. It has been a powerful communication tool in modern life.

### Questions

- 1 What is an e-mail?
- 2 How do e-mails operate?
- 3 How do the commercial servers serve in the process of an e-mail?
- 4 'It has been a powerful communication tool in modern life.' Explain the statement.
- 5 How do e-mails affect our daily work schedule?

**D Work in pairs and discuss the steps of your normal days, weekends, etc.**

**E Pairwork. Read the following e-mail exchanged between two friends. Like an informal letter, an e-mail to a close one is casually written. Identify the mistakes in the main body of the message, discuss with your partner, and correct them.**

## **Lesson 2: Social network services**

**A** Look at the following logos. Are you familiar with them? Discuss with your partner what they are and how they are related to the field of e-communication.

**B** Read the text and answer the following questions.

The Internet technology has helped design a large number of web sites to facilitate social relations among people around the world. These are known as social networking services or social networks or social media. At present, Facebook is the *most popular social media site*. Google+, Twitter, LinkedIn, etc. are other frequently used social services. Social network services are web-based and hence, provide ways for the users to interact through the Internet. *These services make it possible to connect people sharing interests and activities across the borders and thus have made the users feel that they really live in a global village.*

Why are social networks expanding so fast? The answer is simple. Most of the social services are cost-free. You can make use of them free, paying a very little to your Internet service provider. *Secondly*, you can make your personal profile public before the entire online community. It is like presenting yourself before the entire world. You can also look into other people's profile if you are interested. It is simple and easy. *Thirdly*, social networks allow users to upload pictures, multimedia contents and modify the profile. Some services like Facebook allow users to update their profiles. *Fourthly*, networks allow users to post blog entries. User profiles have a section dedicated to comments from friends and other users. *Finally*, there are privacy protection measures too. A user himself or herself decides over the number of visitors/viewers, and what information should be shared with others.

### Questions

- 1 What do you understand by social networks?
- 2 What are some uses of social networks?
- 3 'These services ...have made the users feel that they really live in a global village'. Do you agree with this view? Why/ Why not?
- 4 Make a list of the arguments as to why social networks are expanding so fast. Why do you think this is happening?

**C Read the second paragraph of the text in section B again. Notice the words in italics and write how they work in maintaining logical sequence in the paragraph.**

**D Choose the best answers.**

- 1 The \_\_\_\_\_ technology has helped social networking sites to emerge.  
 a LinkedIn                      b Google+  
 c Internet                      d Twitter
- 2 Users have to pay for

### **Lesson 3: E-learning**

**A Look at the following picture. What objects do you see in the picture? How are they related? Discuss with your partner and say what these are.**

**B Work in pairs. Discuss the following questions.**

- Have you ever experienced any digital education programmes in multimedia or CD/DVD?
- Have you ever used any digitized educational resources such as Oxford Dictionary, Banglapedia or Wikipedia?
- Have you ever heard of any online education course?
- Have you ever seen a classroom teaching programme on TV?

**C Read the text and answer the following questions.**

Can you think of a classroom where there is no blackboard or desks? Do you believe that you can be a student without a printed book or a writing pad or even pen/pencil? Are you not thrilled to imagine that you have asked a question and your tutor is answering it while flying in a Boeing from Dubai to Dhaka? These are all possible in a 'virtual campus' in the system of e-learning. No kidding! For quite a long time, educationists have been utilizing the advantages of computer technology. The social networking services have a huge potential to help educationists in this sector. They have access to millions of people worldwide. Educationists have noticed that a large number of social network users come from young generation who especially belong to student community. So side by side with computer assisted teaching-learning software, online education programmes are evolving fairly rapidly to assist conventional education system. Is that e-learning?

We may confuse distant education or computer-based learning or computer-assisted training or even online education programmes with e-learning. But we should be cautious about the mix-up. What happens in an online education programme? Maybe you get some materials online from your tutor. Maybe you submit your assignment through email. Or even you may take your test online. But there must be some conventional campus, a department/institute from where your certificate will come. But in e-learning, as said by global e-learning guru Dr Badrul H Khan\*, every step, such as registration, admission, classroom entry and exit, class work, attendance, discussion with course mates, feedback, exams and finally certification must take place electronically through computer and the Internet technology in a virtual campus.

Everything is digitized and conducted by a system called Learning Management System (LMS). So online education programmes blend various components of e-learning.

The revolutionary concept of e-learning is already in its practice phase in many parts of the world. Professor Khan has developed a framework and important literatures on e-learning which have been praised by pundits worldwide including from Bangladesh. Professor Khan is especially enthusiastic about the prospect of e-learning in Bangladesh.

How would you feel if Bangladesh contemplates establishing South Asia's first virtual university? Won't it be a pioneering step for us in the world of e-learning? Let's keep our fingers crossed.

*\*Born and graduated in Bangladesh, Dr Badrul H Khan was a Professor at George Washington University and the University of Texas, USA. He is one of the celebrated theorists in the field of e-learning.*

**D Write an e-mail to your teacher expressing your feelings and opinion regarding the next mode of education — e-learning. Also ask your teacher to clarify if anything in the text is unclear to you.**

**E Suppose Dr. Badrul Huda Khan has come to visit your school and intends to meet students for a presentation on e-learning. Write a text message to invite your friend to attend the presentation.**

**F Complete the following sentences with suitable words.**

- 1 Education experts ..... utilizing the advantages of computer technology ..... a long time.
- 2 In e-learning, everything from admission to certification must ..... electronically through computer and the Internet technology in a virtual campus.
- 3 In some online courses, you ..... your test online.
- 4 In case of online programmes, there ..... some conventional campus from where .....
- 5 In e-learning, all activities ..... by a system called Learning Management System (LMS).

## Unit Fourteen

# Pleasure and purpose

### Learning outcomes

After we have studied the unit, we will be able to

- recognize and use English sounds, stress, and intonation
- understand and enjoy stories and other texts
- interpret, evaluate, and summarise literary texts.

## Lesson 1: Books

### A Ask and answer these questions in pairs.

- 1 Do you read any books other than your school textbooks?
- 2 If yes, what kinds of books do you read? (stories, poems, etc)
- 3 Now write one or two reasons why you read those books and share with your partner.

### B Read the poem.

#### Books

What worlds of wonder are our books!  
As one opens them and looks,  
New ideas and people rise  
In our fancies and our eyes.

The room we sit in melts away,  
And we find ourselves at play  
With some one who, before the end,  
May become our chosen friend.

Or we sail along the page  
To some other land or age.  
Here's our body in the chair,  
But our mind is over there.

Each book is a magic box,  
Which with a touch a child unlocks.  
In between their outside covers  
Books hold all things for their lovers.

**Eleanor Farjeon**

**C     What does the poet say about the good things that reading a book can do to you?**

**What other benefits do you think reading books can give you?**

## **Lesson 2: Two Mothers Remembered**

**A     Read the poem and answer the following questions**

### **Two Mothers Remembered**

I had two Mothers – two Mothers I claim  
Two different people, yet with the same name.  
Two separate women, diverse by design,  
But I loved them both because they were mine.  
The first was the Mother who carried me here,  
Gave birth and nurtured and launched my career.  
She was the one whose features I bear,  
Complete with the facial expressions I wear.  
She gave me her love, which follows me yet,  
Along with the examples in life she set.  
As I got older, she somehow younger grew,  
And we'd laugh as just Mothers and daughters do.  
But then came the time that her mind clouded so,  
And I sensed that the Mother I knew would soon go.  
So quickly she changed and turned into the other,  
A stranger who dressed in the clothes of my Mother.  
Oh, she looked the same, at least at arm's length,  
But now she was the child and I was her strength.  
We'd come full circle, we women three,

My mother the first, the second and me.  
And if my own children should come to a day,  
When a new Mother comes and the old goes away,  
I'd ask of them nothing that I didn't do.  
Love both of your Mothers as both have loved you.

**Joann Snow Duncanson**

### **Questions**

**Ask and answer the questions in pairs.**

- 1 How are the two mothers different from each other?
- 2 How are they the same?
- 3 What did the first mother do to the speaker?
- 4 Who was the speaker's second mother? Describe her briefly.
- 5 What would be the speaker's advice to her own children?
- 6 Who are the three women referred to in the poem? Briefly describe them.
- 7 What should children do to their mother and why?
- 8 Do you like this poem? Why?

### **Lesson 3: The Sands of Dee**

**A Listen to the poem. Read it aloud in groups.**

#### **The Sands of Dee**

“O Mary, go and call the cattle home,  
And call the cattle home,  
And call the cattle home  
Across the sands of Dee!”

The western wind was wild and dank with foam,  
And all alone went she.

The western tide crept up along the sand,  
And o’er and o’er the sand,  
And round and round the sand,  
As far as eye could see.  
The rolling mist came down and hid the land  
And never home came she.

“Oh! Is it weed, or fish, or floating hair,  
A tress of golden hair,  
A drowned maiden’s hair  
Above the nets at sea?  
Was never salmon yet that shone so fair  
Among the stakes of Dee.”

They rowed her in across the rolling foam,  
The cruel crawling foam,  
The cruel hungry foam,  
To her grave beside the sea:  
But still the boatman hear her call the cattle home  
Across the sands of Dee.

**Charles Kingsley**

**B Answer these questions.**

- 1 What was the weather like when Mary went to bring the cattle home?
- 2 Look at some words, phrases and sentences that have been repeated several times. Explain why the poet has done that.
- 3 How has the poet described the sea?
- 4 Narrate the story of Mary in your own words.
- 5 Suppose you were walking on the shore with a couple of your friends while Mary was drowning. Describe what you would have done.

**Lesson 4: Time, You Old Gipsy Man****A Read and answer the following questions.**

- 1 Have you ever seen a gipsy? If yes, where?
- 2 Do gipsies live in our country?
- 3 In what ways are they different from the general people?

**B Now read the poem and answer the questions that follow.****Time, You Old Gipsy Man**

Time, you old gipsy man,  
Will you not stay,  
Put up your caravan  
Just for a day?

All things I'll give you,  
Will you be my guest?  
Bells for your jennet  
Of silver the best,  
Goldsmiths shall beat you  
A great golden ring,

Peacocks shall bow to you,  
Little boys sing,  
Oh, and sweet girls will  
Festoon you with may.  
Time, you old gipsy,  
Why hasten away?

Last week in Babylon,  
Last night in Rome,  
Morning, and in the crush  
Under Paul's dome;  
Under Paul's dial  
You tighten your rein—  
Only a moment  
And off once again;  
Off to some city  
Now blind in the womb,  
Off to another  
Ere that's in the tomb.

Time, you old gipsy man,  
Will you not stay,  
Put up your caravan  
Just for a day?

**Ralph Hodgson**

### Questions

- 1 Why does the poet call time an 'old gipsy man'?
- 2 Make a list of things the poet will offer time if it stays just for a day.
- 3 What else can you offer time if it stays for a day?

## Lesson 5: Stopping by Woods on a Snowy Evening

### A Ask and answer these questions.

- 1 Do you enjoy natural beauty like flowers, trees, woods, hills, etc.?
- 2 Have you ever been to a place where you enjoyed such beauty? If yes, briefly describe it.

### B Read the poem and say how the words in each stanza rhyme. For example, in stanza 1 *know* (line 1) *though* (line 2) and *snow* (line 4) rhyme with each other.

#### Stopping by Woods on a Snowy Evening

Whose woods these are I think I know.  
His house is in the village though;  
He will not see me stopping here  
To watch his woods fill up with snow.

My little horse must think it queer  
To stop without a farmhouse near  
Between the woods and frozen lake  
The darkest evening of the year.

He gives his harness bells a shake  
To ask if there is some mistake.  
The only other sound's the sweep  
Of easy wind and downy flake.

The woods are lovely, dark and deep.  
But I have promises to keep,  
And miles to go before I sleep,  
And miles to go before I sleep.

**Robert Frost**

**C Answer the following questions.**

- 1 Where do you think the poet is going? Why is he going there?
- 2 Why did the poet stop by the woods though it was dark and he was alone?
- 3 Guess what promise the poet had to keep before he would sleep.
- 4 Write an imaginary dialogue between the poet and his horse.

**Lesson 6: The Purple Jar-1****A Think about the following situation.**

Suppose your mother / father has given you some money to spend on anything you like in a fair. Going round the fair, you have shortlisted the following items:

- (a) a beautiful decorative wooden horse
- (b) a colourful shirt / *kamiz* of latest fashion
- (c) a box of delicious chocolates for your family
- (d) a golden pen---a gift for your best friend

But you have money enough to buy only one thing.  
Write a paragraph about what you will buy and why.

**B Read the story and answer the following questions.**

Rosamond, a little girl about seven years old, was walking with her mother in the streets of London. As she passed along she looked in at the windows of several shops, and saw a great variety of things. She wanted to stop to look at them and buy them all, without knowing their uses or even without knowing their names.

At first they stopped at a milliner's shop. The windows of the shop were decorated with ribbons, lace and festoons of artificial flowers.

"Oh, Mamma, what beautiful roses! Won't you buy some of them?"

"No, my dear."

"Why?"

"Because I don't want them. They are not real flowers."

They went a little further and came to a jeweller's shop. In it were a great many pretty, bright ornaments of little value, set beautifully behind the glass.

"Mamma, will you buy some of these?"

"Which of them, Rosamond?"

"Which? I don't know which. Look at those earrings, that necklace, those pendants! Any of them will do, they are so pretty!"

"Yes, they are all pretty, but of what use would they be to me?"

"I am sure, Mamma, you could find some use if you only bought them first."

"But I would rather find out the use first."

Though a little disheartened, Rosamond kept on looking at the shops and tried to persuade her mother to buy this or that.

"Mamma, buckles are very useful things. Please buy some."

"I have a pair of buckles. I don't need any now." So saying her mother walked on.

### Questions

- 1 Make a list of things Rosamond wanted to buy.
- 2 How did the milliner's shop look like?
- 3 What can you see in a jeweller's shop in a town/city in Bangladesh, which you know well?

## Lesson 7: The Purple Jar-2

### A Read more of the story.

This time Rosamond was really disappointed as her mother wanted nothing. However, while they were passing by a chemist's shop, she saw some jars—blue, green, red, yellow and purple—and she seemed to have a fascination for a purple jar. But her mother answered as before, "Of what use would they be to me, Rosamond?"

“Oh, Mamma, I would use it for a flower pot.”

“But you have a flower pot and the jar you are dying for buying is not a flower pot.”

“Yet, Mamma, I like it so much ...!”

Then suddenly she cried, “Ouch! A stone, mamma, a stone has got in my shoe. It hurts!”

“Oh! How did it get there?”

“See, there’s a hole in my shoe, Mamma. In fact, my shoes are quite worn out. Would you be so good as to buy me another pair?”

“But, Rosamond, I haven’t got money enough to buy shoes, jars, jewellery, buckles and all that you wish to buy.”

Rosamond became sad again. Her mind flashed back to all those beautiful things she had seen that morning.

“But, Mamma, I like the purple jar very much. And now my foot hurts. Could you buy me only these two things --- the jar and a pair of shoes, please?”

“No, Rosamond, you can buy only one thing. However, you may buy the other thing next month. And you have to decide which one you would like to buy now.’

“I need the shoes badly,” Rosamond began to argue with herself, but my heart is in that beautiful jar.”

Then looking at her shoes, she told her mother, “These shoes are not so bad, except for the hole in one. I think I can make them last till the end of the month, can’t I? Don’t you think so, Mamma?”

“I want you to think for yourself, dear.”

“Okay, if you please, I would like to have the purple jar.’

“Very well, you will have it.”

**B Tick the best answer.**

- 1 Which is the correct statement?
  - a Rosamond saw the chemist's shop from a distance.
  - b She liked the jars of all the colours equally.
  - c She had a special liking for a jar of a particular colour.
  - d Her mother found some use of the purple jar.
- 2 Rosamond wanted to buy
  - a all the jars.
  - b the purple jar.
  - c a flower pot.
  - d a useful pot.
- 3 The money Rosamond's mother has can buy only
  - a one thing.
  - b two things.
  - c three things.
  - d four things.
- 4 Why did Rosamond persuade her mother to buy her a pair of shoes?  
Because
  - a her shoes had become old and ugly.
  - b she had no money to buy the purple jar.
  - c the shoes in the shop were very beautiful.
  - d a stone got in her shoe and was hurting her.
- 5 What made Rosamond finally decide to buy the purple jar?
  - a the beautiful size of the jar
  - b her mother's inability to buy the shoes
  - c her shoes being not so bad
  - d the beautiful colour of the jar

**Lesson 8: The Purple Jar-3****A Read the last part of the story to see what happened to Rosamond's beautiful purple jar.**

Rosamond and her mother were going back to the chemist's shop. As they were walking, Rosamond had to stop once again to take another stone out of the broken shoe, and she often limped with pain.

When they got back to the shop, Rosamond's mother asked her to carefully examine the jar before she bought it. But Rosamond was so excited that she bought it even without looking at what was inside the jar.

Happily she came back home with her mother. Then Rosamond quickly brought some flowers from the garden and was going to put them into the jar. But as soon as she took the top off, she saw something dark inside, which gave off an unpleasant smell.

“What is it, Mamma? I didn’t want this black thing and the terrible smell.”

“Nor did I, my dear.”

“But what shall I do with it?”

“That I can’t tell.”

“Okay, Mamma, I must pour it out and fill the jar with fresh water.”

Then she made the jar empty. But to her great disappointment, she found that it was no longer a purple jar --- it was a plain white glass jar. With its coloured water gone, the jar did no longer look beautiful.

Rosamond cried with tears of disappointment in her eyes. She also cried for her folly. Every day her shoes grew worse and worse, and she could neither run, dance, jump, nor go shopping with her mother.

Thus Rosamond suffered for a whole month and learned a lesson the hard way. She hoped that she would be wiser in future.

### **Adapted from The Purple Jar by Maria Edgeworth**

#### **B Answer these questions.**

- 1 Why didn’t Rosamond examine the jar before buying it?
- 2 What did she take the jar for?
- 3 How did she come to know that the purple jar was in fact a plain white glass jar?
- 4 Describe her sufferings and disappointments for buying the purple jar.

**C Read all the three parts of the story again and answer these questions.**

- 1 How did Rosamond try to persuade her mother to buy all the pretty things she saw in the shops?
- 2 How did her mother try to stop Rosamond from buying all the things she wanted to buy?
- 3 Write two paragraphs-one about Rosamond and the other about her mother. Use words and phrases from the box below, which are appropriate for each character. You can also use your own words and phrases.

a seven year old girl, use, disappointed, purple, worse, lesson, sufferings, artificial, ornaments, pretty, liking, worn out, persuade, beautiful roses, disheartened, enough, badly, examine, unpleasant smell, stupidity, emotional, practical, decide, limped

**Lesson 9: A Pound of Flesh****A Look at the picture and ask and answer the questions.**

- 1 What do you see?
- 2 What are the three persons doing?
- 3 What type of clothes are they wearing?
- 4 Are you familiar with such clothes?
- 5 Who wears such clothes?
- 6 Mention which clothes of our country are close to the ones the men are wearing in the picture?

**B Read the text.**

Once upon a time in Venice, Italy, there was a very rich merchant named Antonio. He had many ships that sailed in the sea. His ships carried different types of merchandise to other countries. He sold those goods there. He bought spices and other valuables from foreign countries and sold them in Venice.

Antonio was a good and kind man. He always helped the poor. The people of Venice loved him very much for his honesty and kindness.

Antonio had a close friend named Bassanio. He was a handsome young man and was born in a noble family. Bassanio liked to live a very luxurious life. He loved grandeur and style. He spent more money than he earned. As a result, he was very often short of money. In such situations, Bassanio would go to his best friend Antonio for help. Antonio would help him with cash.

It so happened that Bassanio fell in love with a wealthy lady named Portia. Portia was known not only for her beauty but also for her wisdom. She was soft towards Bassanio too. He wanted to visit Portia in a grand manner but he did not have any money. So he went to Antonio.

Bassanio said, "Dear friend Antonio, I am in great need of some money. I would like to visit Portia at Belmont, grandly dressed and with many servants. But I don't have any money right now. Please help me to fulfill my intention."

Antonio said, "This is not a problem, my friend. How much do you need?"

"Three thousand ducats [Venetian currency] will do."

"I don't have that much money with me now as all my ships have gone out in the sea with merchandise. But don't worry, my friend, I'll arrange three thousand ducats for you."

So he decided to borrow the sum from a moneylender named Shylock. Shylock was a very crooked man. Antonio and Shylock hated each other. Shylock used to lend money with high interest. He would even send the debtor to prison if the latter failed to pay his debt. On the

contrary, Antonio used to lend money to help those who needed it and would not charge any interest.

Shylock agreed to lend him money but on one condition. If he failed to repay the money in three month's time, he would pay a penalty. Shylock would cut a pound of flesh from any part of Antonio's body.

Antonio willingly agreed, thinking that his ships would soon return with all the rich merchandise and he could easily return the money to Shylock by selling them. Shylock made Antonio sign a bond before giving him the money. Antonio took the money and gave it to Bassanio.

**C True or false? If false, give the correct information.**

- 1 Bassanio was a very rich man.
- 2 Bassanio and Antonio hated each other.
- 3 Antonio went to Shylock to borrow some money.
- 4 Shylock happily gave Antonio the money he asked for.
- 5 Antonio needed the money to bring his merchandise.

**D Read the text in B again and answer the following questions.**

- 1 Why was Bassanio short of money all the time?
- 2 Why did he go to Antonio?
- 3 Why did Antonio go to Shylock?
- 4 Why did Shylock get a bond signed by Antonio?
- 5 What was written in the bond?

## Lesson 10: The three caskets

**A Look at the picture and discuss it in pairs.**

**B Read the text and answer the questions that follow.**

Bassanio went to Belmont to visit Portia grandly dressed, with many servants. Portia's father had died lately. Before his death he had thought of an unusual plan to find a good husband for his daughter. He wanted a man to marry Portia for herself and not for her wealth. He had three caskets made, one of gold, one of silver and one of lead. One of the caskets had Portia's portrait in it. The suitor who would first choose the casket with the portrait would marry her.

The first one to try was the prince of Morocco. He thought that silver and lead are poor metals. It is the casket made of precious metal that can hold the precious picture. So he chose the gold casket. But all he found was a picture of a skull with a message that said, "All that glitters is not gold." The prince was very sad and went back home. Then came the prince of Spain. He looked at the silver casket for a long time. On it was written, "He who chooses me will get what he deserves." The prince had a very high opinion about himself. He thought that he deserved the best. He therefore chose the silver casket and opened it. Inside the casket he found the picture of a blinking fool. He was very disappointed and offended. He immediately rode away.

Then it was Bassanio's turn. He looked at the caskets for a long time. He thought, "Appearances are often misleading. Bad men appear good and they hide their inner ugliness under fine clothes." So he chose the plain looking lead casket. On opening the casket, he found the portrait of Portia inside.

Bassanio and Portia got married. There was great joy at Belmont and the newly married couple were spending their time happily.

But soon their happiness turned into sorrow by a piece of news. A messenger came with a letter from Antonio. The letter said, "Dear friend Bassanio, all my ships have been lost at sea. I cannot pay the money I owe to Shylock. So I have to pay the penalty. Dear friend, come and see me if possible. I would like to see you once before I die." Bassanio quickly left for Venice.

### Questions

- 1 Why did Portia's father make such a strange plan?
- 2 Write what you know of the three caskets.
- 3 How many people attempted to choose the right casket? What was the result?
- 4 Who succeeded to marry Portia? Why/How?
- 5 Why did the joyous mood at Belmont turn sad?

## Lesson 11: The trial

**A Read the text and answer the questions that follow.**

When Bassanio reached Venice, Antonio was already in the court of justice. They were waiting for the trial to begin. The Duke entered the courtroom, took his seat and the trial began. The Duke requested Shylock to be merciful and not to claim his pound of flesh. But Shylock would not listen to him. Bassanio offered him twice the amount of money that Shylock lent Antonio but Shylock did not accept it. He said, "I claim my pound of flesh. The law is on my side. Antonio must pay the penalty written in the bond."

The Duke was extremely sorry that he could do nothing to help Antonio. The law was on Shylock's side and the law must be abided. The Duke feared that although the wisest lawyer in Venice was coming to speak in defense of Antonio, he would not be able to save the merchant. Soon a young clerk entered the courtroom with a letter from that lawyer. The lawyer was ill and would not be able to come to the court.

He requested the Duke to let his young friend, Doctor Balthazar, defend Antonio. The Duke gave his permission, and Doctor Balthazar entered the courtroom. He looked very young, and the Duke doubted if the wisdom of the young lawyer could save Antonio. This young lawyer was no other than Portia in disguise and the young clerk was her friend, who was also in disguise.

Portia begged Shylock to be merciful and told him how God bestows mercy to those who are merciful themselves.

"Mercy" Portia said, "brings a blessing to him who shows it and to him who receives it. All of us pray to God for mercy. But God will only have mercy on us if we have mercy on others."

Shylock paid no heed to Portia. All he wanted was his pound of flesh.

Portia asked, "Can't Antonio pay the debt?"

Bassanio cried, "Yes, he can pay it, and even more. ... Even I can pay ten

times the sum my friend borrowed from Shylock.”

“ Won’t you take the money, Shylock?” Portia asked.

“ No, I demand the lawful penalty. Give me my pound of flesh.”

“ Let me see the bond Shylock”, said Portia.

Shylock handed the bond to her. She read it with great attention and then said, "You are right Shylock. The law is on your side. You can claim the flesh. But I would request you one more time to accept the sum Bassanio is offering you, and let me tear up the bond." But Shylock would not give up his claim. Portia then turned towards Antonio and said, “Get ready Antonio for Shylock to cut his pound of flesh. The law gives it to him.”

Shylock was filled with joy on hearing what Portia said. He began to praise Portia in disguise, for her wisdom and righteousness. He cried out, "Oh noble judge! Oh excellent young man, you are a second Daniel, who has come to this earth."

Portia urged Shylock to cut the pound of flesh he demanded. Delighted, Shylock walked towards Antonio with a knife in hand. He told Antonio to uncover his chest. But as he was about to cut Antonio's flesh, Portia stopped him. She cried out, “Wait a second, Shylock! Never forget - there is no mention of blood in the bond. Therefore, you cannot shed a single drop of blood while you cut your pound of flesh; or else you pay the penalty. And the penalty is, the state will take your property from you. You lose everything that you have now, Shylock."

Shylock understood it was not possible for him to cut a pound of flesh without shedding blood. He was defeated by the wise lawyer. He hung his head and without another word left the courtroom. Thus Antonio's life was saved.

**Lessons 9, 10 & 11 are adapted from *The Merchant of Venice* by William Shakespeare.**

**Read the passage. Then answer the questions below.**

21 February is a memorable day in our national history. We observe the day every year as International Mother Language Day. The day is a national holiday.

On this day, we pay tribute to the martyrs who laid down their lives to establish Bangla as a state language in undivided Pakistan in 1952. The struggle to secure the rights of our mother language is known as the Language Movement.

The seeds of the Language Movement were sown on 21 March 1948 when Mohammad Ali Jinnah, the Governor General of Pakistan, declared in a public meeting in Dhaka that Urdu would be the only state language of Pakistan. The declaration raised a storm of protest in the eastern part of the country. The protest continued non-stop, gathering momentum day by day. It turned into a movement and reached its climax in 1952. The government outlawed all sorts of public meetings and rallies to stop it.

The students of Dhaka University defied the law and brought out a peaceful protest procession on 21 February 1952. When the procession reached near Dhaka Medical College, the police opened fire on the students, killing Salam, Rafiq, Barkat, Safiur and Jabbar. As a result, there were mass protests all over the country and the government had to declare Bangla as a state language. This kindled the sparks of independence movement of Bangladesh.

- c) Why did Pakistani government outlaw meetings and rallies in 1952?
- d) Why did the police kill Salam, Rafiq, Barkat, Safiur and Jabbar?
- e) How is Language Movement related to the independence of Bangladesh?

**Suggested Answers :**

- a) 21 February is a national holiday because on that day in 1952 Rafiq, Salam, Barkat, Safiur and Jabbar laid down their lives to establish Bangla as a state language of Pakistan. The day is observed as a national holiday as a mark of our tribute to the martyrs.
- b) “Undivided Pakistan” was the Pakistan before 1971. In 1971 East Pakistan became independent and emerged as a new country—Bangladesh.
- c) Pakistani government outlawed meetings and rallies in 1952 in order to stifle the people’s voice raised against the declaration of Urdu as the only state language of Pakistan.
- d) The moral strength of the students’ peaceful procession on 21 February 1952 in support of Bangla as a state language frightened the Pakistani government. Therefore, their police opened fire and killed the processionists—Salam, Rafiq, Barkat, Safiur, and Jabbar.
- e) The success of Language Movement succeeded in kindling the sparks of independence movement. The independence movement eventually turned into the liberation war and the Bangalees got a new country—Bangladesh.

**3. Read the following text and fill in each gap with a suitable word based on the information of the text.****1×5=5**

Everyone wants to share this happiness with near and dear ones. That’s why people rush for their homes in spite of serious hazards? This is nothing but people’s desire to return to the roots. Do human beings have roots like the trees? The answer is 'yes' but unlike the roots of the trees they are invisible, they lie in our minds. It's these roots that make a bond between us and family members,

in-laws, friends, neighbours or even between us and the land where we were born and grew up. In that sense our families, our land of birth, relatives, our culture, traditions, or surroundings are our roots. And wherever we stay, we feel the power of our roots. It's our roots that develop our identity making us what we are. When we lose that bond, we become rootless. Human beings who do not have any roots are a non-entity. In other words, they do not have an identity. They don't know where they are from, and/or where they are heading to. This often makes them feel empty and lost.

By nature, human beings love a) \_\_\_\_ to share their feelings with near and dear ones. This invisible b) \_\_\_\_ for each other lies in our hearts. It always pulls us to c) \_\_\_\_ back to our roots. It develops our identity and d) \_\_\_\_ us to know who we are. If we deny our roots, we will deny our existence. So, we can't but e) \_\_\_\_ our roots.

**Suggested Answers:**

- a. companions/ friends
- b. feelings
- c. go/come
- d. helps/assists
- e. nourish/ strengthen

**8. Answer the following questions to write a paragraph on Global Warming.**

**10**

- a) What is global warming?
- b) What are the causes of global warming?
- c) What are the effects of global warming?
- d) What should we do to stop it?
- e) Why do we need a green environment?

**Suggested Answer:**

### **Global Warming**

Global warming is now a major worldwide concern. It is the gradual warming of the air surrounding the earth as a result of heat being trapped by environmental pollution. There are many factors responsible for it. Firstly, the destruction and burning down of tropical rain forests; secondly, traffic that clogs up city streets; thirdly, the rapid growth of industries and the use of CFC; fourthly, the use of detergents. As a result, the world is heating up. However the main culprit

is the carbon dioxide gas produced by the burning of fossil fuels and forests. All these are responsible for global warming as well as climatic change. The effects of global warming are very alarming for our life and existence. Because of global warming the temperatures may have risen by as much as 4° C. It could severely reduce mankind's ability to grow food; destroy wildlife and damage wilderness, raise sea levels and flood coastal areas and farmland. It is a severe threat to our life and existence. So to save the globe and to live a healthy life we should come forward to stop environmental pollution and the emission of green house gases. To ensure a green environment we should plant trees and stop destruction of forests. A green environment can ensure healthy and danger free life. We all should work hand in hand to save the globe from the harmful effects of climate change .

It was on the first day of Boishakh. Dulal came out of his house in the morning with all his family members. Their first destination was the Ramna Park. In the park, there were people of all ages. Dulal could see a group of foreigners too. One of them had a camera and he was clicking all the way. All of a sudden, he came near Dulal.....

**Suggested answer:**

.....and in a sweet yet strange voice said, 'Shubho Nababorsho'.

Dulal felt excited. 'who taught you to say that'? asked Dulal.

'I have heard people saying it everywhere in the garden'.

The camera-happy man was from Norway. He said, 'Look, we are friends now. I will give you a small book that contains general info about my country. But please tell me about this day. I have visited many places of the world but I have never seen such a festive rally of people'.

'Do you like it'? Dulal asked.

'It's fantastic and exciting'.

Dulal guided the foreigner to the Institute of Fine Arts. The huge new year procession was about to start with all kinds of colorful masks. Dulal started telling the man about the motifs of the masks. All on a sudden, he remembered that his parents must be frantically looking for him. In a nervous tone Dulal said, 'Sorry, I have to go'. Without waiting for the foreigner's response, he started running to Ramna Park to meet his parents.

**10. The graph below shows the number of computer owners by gender in a city named 'X' from the year 2012 to 2016. Describe the chart in 150 words. You should highlight and summarize the information given in the chart.**

**10**

**Sample answer:**

The graph presents the number of computer users both male and female in the city 'X' over five years from 2012 to 2016. It shows that the popularity of computer among users of both the sexes steadily increased over the span of time.

At the beginning of the time period we see a big difference between the number of male and female computer users of where the male users outnumber the female users three to one. There is a gradual growth in the numbers of both types of users over the years, but the growth is more rapid in the case of female users. The number of male users has doubled over five years, whereas the number of female users is four times more at the end than in the beginning year.

The use of computers is gradually becoming more and more popular among both the sexes, while women are gradually achieving parity with men.

Subject: Sharing patriotism

Dear Pranto,

I know it may not have time to read my mail as you are extremely busy with your study tour. But I believe the story will move you greatly.

Yesterday morning, I was heading towards my school to take an exam in a rickshaw. Everything around was so quiet that I felt a little scared. On my way, I saw some paper flags lying on the roadside. I remembered that yesterday was 16<sup>th</sup> December. Suddenly, the grey bearded puller stopped the rickshaw, got down and sprinted down the road. I was so terrified that I couldn't utter a single word. But I noticed that in a minute he returned with those flags. Composing myself, I told him that I was quite moved by his action. Taking a deep breath, he said, "Look, these are the flags for which I fought risking my life. So, I can't allow anyone to step on them." I realized that this patriotic zeal made the victory possible in 1971. My eyes became wet with tears. I believe it's time for all of us to play our part in realising the dreams of our indomitable freedom fighters for which they sacrificed their lives and limbs. Hope to hear from you.

With love

Afsana
